School Board Approval

This plan was approved by the Broward County School Board on 10/17/2023.

SIP Authority

Section 1001.42(18), Florida Statutes (F.S.), requires district school boards to annually approve and require implementation of a new, amended, or continuation SIP for each school in the district which has a school grade of D or F; has a significant gap in achievement on statewide, standardized assessments administered pursuant to s. 1008.22 by one or more student subgroups, as defined in the federal Elementary and Secondary Education Act (ESEA), 20 U.S.C. s. 6311(b)(2)(C)(v)(II); has not significantly increased the percentage of students passing statewide, standardized assessments; has not significantly increased the percentage of students demonstrating Learning Gains, as defined in s. 1008.34, and as calculated under s. 1008.34(3)(b), who passed statewide, standardized assessments; has been identified as requiring instructional supports under the Reading Achievement Initiative for Scholastic Excellence (RAISE) program established in s. 1008.365; or has significantly lower graduation rates for a subgroup when compared to the state's graduation rate. Rule 6A-1.098813, Florida Administrative Code (F.A.C.), requires district school boards to approve a SIP for each Department of Juvenile Justice (DJJ) school in the district rated as Unsatisfactory.

Below are the criteria for identification of traditional public and public charter schools pursuant to the Every Student Succeeds Act (ESSA) State plan:

Additional Target Support and Improvement (ATSI)

A school not identified for CSI or TSI, but has one or more subgroups with a Federal Index below 41%.

Targeted Support and Improvement (TSI)

A school not identified as CSI that has at least one consistently underperforming subgroup with a Federal Index below 32% for three consecutive years.

Comprehensive Support and Improvement (CSI)

A school can be identified as CSI in any of the following four ways:

1. Have an overall Federal Index below 41%;
2. Have a graduation rate at or below 67%;
3. Have a school grade of D or F; or
4. Have a Federal Index below 41% in the same subgroup(s) for 6 consecutive years.

ESEA sections 1111(d) requires that each school identified for ATSI, TSI or CSI develop a support and improvement plan created in partnership with stakeholders (including principals and other school leaders, teachers and parent), is informed by all indicators in the State's accountability system, includes evidence-based interventions, is based on a school-level needs assessment, and identifies resource inequities to be

addressed through implementation of the plan. The support and improvement plans for schools identified as TSI, ATSI and non-Title I CSI must be approved and monitored by the school district. The support and improvement plans for schools identified as Title I, CSI must be approved by the school district and Department. The Department must monitor and periodically review implementation of each CSI plan after approval.

The Department's SIP template in the Florida Continuous Improvement Management System (CIMS), <https://www.floridacims.org>, meets all state and rule requirements for traditional public schools and incorporates all ESSA components for a support and improvement plan required for traditional public and public charter schools identified as CSI, TSI and ATSI, and eligible schools applying for Unified School Improvement Grant (UniSIG) funds.

Districts may allow schools that do not fit the aforementioned conditions to develop a SIP using the template in CIMS.

The responses to the corresponding sections in the Department's SIP template may address the requirements for: 1) Title I schools operating a schoolwide program (SWD), pursuant to ESSA, as amended, Section 1114(b); and 2) charter schools that receive a school grade of D or F or three consecutive grades below C, pursuant to Rule 6A-1.099827, F.A.C. The chart below lists the applicable requirements.

SIP Sections	Title I Schoolwide Program	Charter Schools
I-A: School Mission/Vision		6A-1.099827(4)(a)(1)
I-B-C: School Leadership, Stakeholder Involvement & SIP Monitoring	ESSA 1114(b)(2-3)	
I-E: Early Warning System	ESSA 1114(b)(7)(A)(iii)(III)	6A-1.099827(4)(a)(2)
II-A-C: Data Review		6A-1.099827(4)(a)(2)
II-F: Progress Monitoring	ESSA 1114(b)(3)	
III-A: Data Analysis/Reflection	ESSA 1114(b)(6)	6A-1.099827(4)(a)(4)
III-B: Area(s) of Focus	ESSA 1114(b)(7)(A)(i-iii)	
III-C: Other SI Priorities		6A-1.099827(4)(a)(5-9)
VI: Title I Requirements	ESSA 1114(b)(2, 4-5), (7)(A)(iii)(I-V)-(B) ESSA 1116(b-g)	

Note: Charter schools that are also Title I must comply with the requirements in both columns.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Department encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

I. School Information

School Mission and Vision

Provide the school's mission statement.

Our Mission Statement

The mission of Plantation Middle School is:

To create and foster an environment of learning that harnesses high quality instruction through a wide variety of educational experiences to influence positive long-term success for scholars.

Provide the school's vision statement.

Our Vision Statement

At Plantation Middle School our vision is to provide a global readiness preparation experience for all students through innovative college and career focused program pathways integrated with skill development in information and technology literacy, critical thinking and problem solving, as well as social and cross-cultural awareness, thereby creating citizens who are responsible and competitive decision makers and leaders.

School Leadership Team, Stakeholder Involvement and SIP Monitoring

School Leadership Team

For each member of the school leadership team, select the employee name and email address from the dropdown. Identify the position title and job duties/responsibilities as it relates to SIP implementation for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Qaiyim, Tariq	Principal	<p>INSTRUCTIONAL LEADERSHIP:</p> <ol style="list-style-type: none"> 1. Exercise proactive leadership in promoting the vision and mission of the District's Strategic Plan. 2. Utilize collaborative leadership style and quality processes to establish and monitor a school mission and goals that are aligned with the District's mission and goals through active participation of stakeholders' involvement in the school improvement process with the School Advisory Council (SAC) and School Advisory Forum (SAF). 3. Achieve expected results on the school's student learning goals. 4. Direct energy, influence and resources toward data analysis for instructional improvement, development, and implementation of quality standards-based curricula. 5. Demonstrate that student learning is a top priority through leadership actions that build and support a learning organization focused on school success. 6. Work collaboratively to develop, implement and monitor an instructional framework that aligns curriculum with state standards, effective instructional practices, student learning needs and assessments. 7. Recruit, retain, develop and evaluate an effective and diverse faculty and staff. 8. Facilitate effective professional learning and provide timely feedback to faculty and staff to improve their professional performance and offer assistance to strengthen weaknesses in performance. 9. Establish and maintain individual professional development plans for each instructional employee that is linked to student achievement. 10. Monitor the implementation of critical initiatives including, but not limited to accreditation, Innovation Zone activities, and horizontal and vertical articulation within the school and feeder pattern. 11. Structure and monitor a school learning environment that improves learning for a diverse student population. 12. Establish and coordinate procedures for student, teacher, parent and community evaluation of curriculum. 13. Implement and monitor procedures to ensure that rights of all children and their parents are protected. <p>ORGANIZATIONAL LEADERSHIP:</p> <ol style="list-style-type: none"> 14. Employ and monitor transparent decision-making processes that are based on a vision, mission, and improvement priorities using facts and data. 15. Utilize processes to empower others and distribute leadership when appropriate. 16. Manage the school, operations, and facilities in ways that maximize the use of resources to promote a safe, efficient, legal, and effective learning environment. 17. Lead and manage organizational processes for school operations including, but not limited to, student discipline, student attendance, school food service, student transportation, master schedules, extracurricular activities, school finance and financial reporting, and maintenance of the physical plant. 18. Employ an improvement cycle for operational problems that analyzes

CONTINUOUS IMPROVEMENT Engage in planned continuous professional quality improvement for self and school.</p> <p>4. CRITICAL THINKING Use appropriate techniques and strategies which promote and enhance critical, creative, and evaluate thinking capabilities of students.</p> <p>5. DIVERSITY Use appropriate instructional strategies and materials that reflect each student's culture, learning styles, special needs, and socio-economic background.</p> <p>6. ETHICS AND REGULATIONS Fulfill the terms of any affected written contract and adhere to Code of Ethics and Principles of Professional Conduct of the Education Profession in Florida and assist in the enforcement of all federal, state and district board regulations.</p> <p>7. HUMAN DEVELOPMENT AND LEARNING Use an understanding of learning and human development to provide a positive learning environment which supports the intellectual, personal, and social development of all students.</p> <p>8. KNOWLEDGE SUBJECT MATTER Demonstrate knowledge and understanding of the subject matter.</p> <p>9. LEARNING ENVIRONMENTS Establish a classroom management system that maintains appropriate discipline and creates a positive learning environment in which students are actively engaged in learning, social interaction, cooperative learning, and self-motivation.</p> <p>10. PLANNING Plan, align, implement, and evaluate effective instruction and assessment in a variety of learning environments.</p> <p>11. ROLE OF THE TEACHER Work with peers, parents, community, and other stakeholders in the continuous improvement of the educational experiences of students.</p> <p>12. TECHNOLOGY Integrate appropriate technology in teaching and learning processes.</p> <p>13. ESOL REQUIREMENT Complete the training and obtain the endorsement outlined in State Board of Education rules and/or guidelines if assigned limited English proficient (LEP) students.</p> <p>14. RECORD KEEPING Keep school records and prepare and submit such reports as may be</p>

Name	Position Title	Job Duties and Responsibilities
		<p>required by law, by regulations of the state board or school district.</p> <p>15. PROPERTY</p> <p>Account for all other school property (keys, records, reports, personal computers, etc.) to the principal of the school or to the Superintendent as may be prescribed by regulations of the state board and of The School Board of Broward County.</p> <p>16. ADDITIONAL RESPONSIBILITIES</p> <p>a. Perform and promote all activities in compliance with equal employment and nondiscrimination policies.</p> <p>b. Ensure adherence to good safety procedures.</p> <p>c. Follow federal and state laws, as well as School Board policies.</p> <p>d. Perform other duties as assigned by the principal.</p>

Stakeholder Involvement and SIP Development

Describe the process for involving stakeholders (including the school leadership team, teachers and school staff, parents, students (mandatory for secondary schools) and families, and business or community leaders) and how their input was used in the SIP development process. (ESSA 1114(b)(2))

Note: If a School Advisory Council is used to fulfill these requirements, it must include all required stakeholders.

Plantation Middle School involves stakeholders in the SIP process, not by just sharing the plan and taking stakeholder input as part of the process. As the team implemented the SIP for the 2023 SY and will continue to do in the 2023-2024 SY, quarterly progress monitoring data as well as F.A.S.T. PM 1 and 2 are shared with all stakeholders in relation to each accountability area SIP goal. Staff engaged in data-based action planning adjustments as part of the PLC process. Students continuously track their performance progress during the instructional cycle, as measured against the school goals. Teachers facilitate goal reflection sessions with students, wherein students are afforded the opportunity to adjust their goals based on their progress monitoring performance along and share their support needs for instruction and personal development growth (ex. focusing and study skills). Since this was done throughout the year, leadership was able to ascertain some of the school improvement gaps from the perspective of the student. This was coupled with information from the student customer survey. In addition to the aforementioned, staff and students have been able to have further interaction with monitoring and giving input on the SIP along with parent and community leaders via monthly SAC meetings, with focused adjustment input at the mid-point of the year as well in specifically facilitated school improvement S.W.O.T. analysis and vertical alignment action planning during the summer. The draft of the SIP will be voted upon following governing SAC statutes.

SIP Monitoring

Describe how the SIP will be regularly monitored for effective implementation and impact on increasing the achievement of students in meeting the State's academic standards, particularly for those students with the greatest achievement gap. Describe how the school will revise the plan, as necessary, to ensure continuous improvement. (ESSA 1114(b)(3))

Impact of implementation of the SIP on student achievement is accomplished via weekly standards focused, data driven Professional Learning Communities in which teachers utilize a common protocol to reflect on instruction, assess which students benchmarked focused lesson implementations worked for and which students the lesson had the least learning impact on. This includes isolating student sub-groups such as ESE and ELL students. These reflection conversations lead to teachers and support staff determining practioner adjustments that must be made and/or teacher support needed for learning and teaching improvement. The information from PLCs become part of the guided collaborative planning process which focuses on teachers working with school-based and district curriculum support staff as well as administration to plan for interventions for struggling students according to the data. Administration will also conduct one-on-one data conversations with teachers and support staff with regards to progress monitoring, plans for improvement and needs assessment questions directly aligning to the overall school, accuntability areas, and student sub-group improvement goals. Professional development and tiered support to staff will be provided accordingly. Students are provided tiered intervention support accordingly to clise achievment gaps.

Demographic Data

III. Planning for Improvement

Data Analysis/Reflection

Answer the following reflection prompts after examining any/all relevant school data sources.

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

One of the areas showing the lowest performance is 8th grade science, which has only a 1% increase from the 2022 school year. While math showed a 2022 to 2023 comparative increase of 6% for 6th grade and 7% for 7th grade, these increases measure significantly below the 24% increase for performance in 8th grade pre-algebra. Equally low in growth performance is ELA, which increased by only 1% from 35% in 2022 to 36% proficiency in 2023. This low growth in proficiency led to the school's failure in recapturing the 4% decrease difference between 2021 and 2022. Even though ELA proficiency growth across the district from F.A.S.T. PM2 to F.A.S.T. PM3 was low, Plantation Middle has identified instructional gaps due to teachers' lack of working knowledge of the progression of the standards across grade levels. This leads to low rigor in instruction across all grade levels for the content. Likewise, for science and math, teachers were not planning for standards instructions with scaffolding that landed at the rigor of the grade level standard. The major factors contributing to this is that 6th - 8th grade math teachers continue to need capacity building in unwrapping and understanding of the standards, using resources such as the FLDOE Big Ms and science teachers needing the same - unpacking the standard to ensure instruction is addressing core targets with appropriately aligned activities for scaffolding. Without this deliberate process in all content, then planning for remediation and enrichment will be sub-par as teachers will not be able to identify the true gap areas in learning; if they are also not planning to meet the rigor of the standard through appropriate scaffolding, then the data for practice reflection and lesson adjustments will be invalid as results are not a true reflection of how students are doing against what they are suppose to be learning, per the grade level standards.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Although no accountability areas outside of the demographic sub-groups showed decline from the previous year, 8th grade science showed the lowest increase with only a + 1% difference in 2023 (19%) compared to 2022's 18% proficiency. The major factors contributing to this is that 6th - 8th grade teachers continue to need capacity building in unwrapping and understanding of the standards. There is also a practitioner gap in teachers consistently analyzing data to reflect on instructional practice decisions and adjustments to improve student performance in science. The two aforementioned gaps heavily impacted instructional planning as activities and tasks were, at times, not meeting the rigor of the standard and/or addressing students' needs for remediation and enrichment. In addition, there was a low level of hands-on learning in science - a research-based practice that can improve student performance in this core subject area. Another area needing immediate attention is ELA, which shows 36% proficiency, which is a + 1 growth difference compared to the 2022SY results. The ELL sub-group also showed decline in multiple grade levels for ELA. While 7% of 6th grade ELL students in ELA were proficient in PM1, this number decreased to 4% in PM2 and down to 0% in PM3. Likewise, while 8th grade ELL students proficiency in ELA went up from 0% in PM1 to 14% in PM3, this sub-group regressed to 0% proficiency in PM3. A major contributing factor to this is the need for content teachers to consistently use effective ELL support strategies and accessible resources, such as language dictionaries and content glossaries during instruction as well as to focus on scaffolding students up to the rigor of the standard for each grade level; instructional rigor was a practitioner struggle area.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Plantation Middle demonstrates a pattern of underperformance in multiple core content areas, when compared to the state's proficiency outcomes. The 2023 state assessment data shows Plantation Middle 25 percentage lower than the state in science. ELA results show an 11% point gap to the state's 47%, with 6th and 8th grades demonstrating a double-digit underperformance gap of 14% and 11% respectively. This underperforming pattern is also evident in Math which, overall, is 20% lower than the state's performance; 6th and 7th grades math are specific major gap areas as their results show a 29% and 23% points below the state's performance of 54% and 48% respectively. 6th grade, for both ELA and Math, is showing an issue of incoming proficient students not maintaining proficiency. As previously mentioned, the overarching factors contributing to these gaps are teachers needing more capacity building in unwrapping and understanding of the progression of standards. There is also a gap of teachers consistently analyzing data to reflect on instructional practice decisions and adjustments to improve student performance. These factors heavily impact instructional planning as activities and tasks are, at times, not meeting the rigor of the standard and/or addressing students' needs for remediation and enrichment. In addition, there is a low usage of hands-on learning in science - a research-based practice that can improve student performance in this core subject area. Math has a need to engage students in more mathematical thinking and reasoning to build their decision making skills for concept application; this is an implication that teachers should, therefore, be more deliberate in incorporating the MTRs in their lesson planning and lesson implementation.

Which data component showed the most improvement? What new actions did your school take in this area?

The area showing the most improvement is 6th - 8th mathematics, which increased from 23% in 2022 to 36% (+23%) proficiency in 2023. The 8th grade sub-group from this accountability area increased from 24% proficiency in 2022 to 48% in 2023. The significant improvement is a result of strategic individual support of math teachers to build their planning and lesson implementation capacity based on ongoing progress monitoring results as well as classroom walkthrough observation trends and individual teacher needs. In addition to this, both district and school support coaches collaborated with teachers to analyze data and implement push-in small group interventions for targeted students to address in-time deficiencies during the instructional cycle. After triangulating F.A.S.T. PM, common formative assessment, and daily progress monitoring data at the mid-year point, the instructional block design for 6th-8th math was restructured to facilitate the spiral remediation of standards identified as areas needing improvement. This spiraling was also the driver for the instructional plans for Extended Learning Opportunities (ELOs).

Reflecting on the EWS data from Part I, identify one or two potential areas of concern.

One potential area of concern in the EWS data is the number of students missing instructional time due to high absences, which includes suspensions. According to the data, 225 absences of 10 days or more were reported and 184 students with one or more suspension. Students who frequently miss instructional time will struggle academically. If PLMS improves student attendance and lower the number of suspensions, the anticipated impact is improved student performance in Math and ELA, including a decrease in core class failures and a decrease in the number of level 1 students in both areas. An improvement in academic performance also decreases the risk of student retention.

Rank your highest priorities (maximum of 5) for school improvement in the upcoming school year.

For the 2023-2024, PLMS will focus on the following:

(a) Improving teacher capacity in critical areas such as, but not limited to, understanding the working components of the grade level standards, effective instructional strategies based on the mastery requirements for instructional standards, consistently disaggregating and utilizing data to reflect on the impact of instructional practices and making the needed adjustments for student learning outcomes; the

anticipated impact is improvement in overall student performance in ELA, Math, Science and Social Studies.

(b) Improve teacher capacity in understanding of and the effective utilization of research-based practices to support ELL and ESE students as well as to increase female students performance in Mathematics.

(c) Continue to build teacher efficacy in engaging in data-driven PLCs with fidelity.

(d) Decrease the number of student absences due to suspensions and increase parental involvement.

Area of Focus

(Identified key Area of Focus that addresses the school's highest priority based on any/all relevant data sources)

#1. Instructional Practice specifically relating to Intervention**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed. One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

Students with Disabilities (SWD) and English Language Learners (ELLs) are performing below the Federal Index annual growth measure. SWD students had an index score of 22% and ELL a score of 37% - both below the 41% minimum index mark. This result of underperformance has been for multiple years for both sub-groups. For this reason, strategy focused classes for SWDs and an ESSR support assignment for ELLs.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

By June 2024, PLMS will increase the performance of ELL students by 6% to exceed the minimum Federal Index threshold as measured by the state assessment.

By June 2024, PLMS will increase the performance of SWD students by a 19% to meet the minimum Federal Index threshold as measured the state assessment.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

There will be weekly observations by school administration and instructional coach of the wraparound strategies support classes, Developmental Language Arts classes and ESSR support group sessions, with subsequent action plan including but not limited to ensuring ELLs have resources such as access to language dictionaries and glossaries. Students should be using these identified resources consistently. Students should be referred to ELO for additional support.

Person responsible for monitoring outcome:

[no one identified]

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

Deliberate assignment of ELLs and SWDs to extra layer support groups via benchmark strategies/focused and Developmental Language Arts classes. This is in addition to being assigned to an ESSR interventionist in order to provide students additional standard-focused remediation as determined by weekly learning outcomes in core content ELA and Math classes. John Hattie's Visible Learning shows that Interventions for students with learning needs yields a .77 annual growth effect size, with .4 and higher considered to be high impact.

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

Support facilitation allows students to be included in instruction in the least restricted areas, while providing them with layered opportunities of support through purposed scheduling that will allow collaboration around learning outcomes for these sub-group of students and collaborative action planning and implementation to address specific academic needs to close learning gaps, which moves students towards learning gains. This includes the streamlining of tools and resources that will assist the students to be successful as they go through Tier 2 and Tier 3 Universal Design of Learning.

Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)

Tier 1 - Strong Evidence

Will this evidence-based intervention be funded with UniSIG?

Yes

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

ESE students scheduled in the special wraparound support classes for intervention. ELLs scheduled in Developmental Language Arts classes and as a cohort in core content, in order to effectively provide grouped support with appropriate accommodations.

Person Responsible: Ackimo Charles (ackimo.charles@browardschools.com)

By When: By August 18, 2023

Instructional coaches will collaborate with ESSR support and strategies class personnel to discuss and plan for weekly interventions for these students based on the learning outcomes discussed in PLCs.

Person Responsible: Claudia Ruiz (claudia.ruiz@browardschools.com)

By When: Ongoing beginning September, 2023 post F.A.S.T. PM1

In addition to daily teacher PLC progress monitoring as captured in weekly PLC data, students will be progress monitored through quarterly CFAs and will be referred for ELO as part of the MTSS process and collaboration between core teachers, coaches, support facilitators and ELO staff.

Person Responsible: Claudia Ruiz (claudia.ruiz@browardschools.com)

By When: By September 19, 2023

Teachers will be provided targeted ESE trainings to support our ESE students. The trainings will focus on instructional strategies such as differentiated instruction and small group instruction, ESE accommodations, ESE compliance, SEL strategies, Tier 1 and 2 interventions and support programs such as Immersive Reader and Learning Ally to embed in their curriculum.

Person Responsible: Claudia Ruiz (claudia.ruiz@browardschools.com)

By When: September 29, 2023

#2. Instructional Practice specifically relating to ELA**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed.

One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

Plantation Middle School will utilize a multi-tiered approach to addressing deficiencies in instructional practices in ELA. These deficiencies include teachers not utilizing planning tools such as the progression of the B.E.S.T. standards to ensure that instruction involves the scaffolding towards and sustaining students at the mastery level of the grade level standard. It also limits teachers' understanding and or ability to effectively identify remediation gap areas from the previous year that may have an impact on current grade-level learning; likewise, not understanding the vertical alignment of the standards interferes with the teachers' ability to help students make standard progression connections, thus current instruction does not support student successful matriculation. In addition, PLC conversation observation, progress monitoring assessments as well as coach supported collaborative planning show that teachers are not consistently planning for the explicit instruction of standard-aligned academic vocabulary. While teachers often utilize the key verbiage of the standard, there needs to be an improvement in the intentional building of classroom culture that supports students' oral and written use of targeted words in context, as delineated in the item specifications for the B.E.S.T. standards, in order to accurately respond to standard aligned tasks/questions. Also, ELA teachers still need support in effectively using real-time monitoring and triangulated data to better make adjustments in order to differentiate instruction to address learner needs. Based on the school's data trend, level 1 and 2 students though making gains, are not making gains in significant numbers to higher achievement levels but are either regressing or remaining in the same achievement level bracket. In addition, there is a pattern of proficient students regressing to non-proficiency. Likewise, there are students who were proficient pre-covid but who regressed during the pandemic; instruction has yet to close these students' learning loss in order for them to regain proficiency.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

By June 2023 Plantation Middle school will increase ELA proficiency to 45% as measured by F.A.S.T. results.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

(a) Building teacher capacity in utilizing standard progression to ensure instructional rigor will be monitored via weekly guided collaborative planning evidenced in lesson plan and guided planning coaches' log. 2. Administrators and coaches will conduct classroom walkthrough to monitor the implementation of lessons that reflect appropriately scaffolded steps that show student progression through the standard and which reflect advancement towards rigor of the standard. Feedback and support will be provided accordingly.

(b) Lesson implementations in both elective and ELA classes will be monitored for the incorporation of interactive vocabulary notebooks as well as teachers utilizing interactive word walls as a pathway to reinforce student understanding and utilization of academic vocabulary in discourse and writing. PLC conversations and guided collaborative planning will also measure the student success outcome with these implementations. Teachers will monitor student attending to the use of academic vocabulary in tasks, with results and student work shared during PLCs.

Person responsible for monitoring outcome:

Claudia Ruiz (claudia.ruiz@browardschools.com)

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

PLMS will strategically provide professional development and coaching support to grow teachers' efficacy in the areas of:

(a) Standard Progression & Rigor: This involves building teacher capacity in improving instructional practices to include appropriately scaffolding students to the rigor of the standard and (b) ensuring that all students receive instruction at the rigor of the standard.

(c) Building Academic Vocabulary Knowledge & Application Skills: Teachers will be trained in utilizing the unwrapped standard process to identify academic vocabulary that student should not just understand the meaning of; teachers will be trained in strategies that can be used to help students develop an application level understanding of these words, as they encounter these words text-based questions, including performance tasks.

(d) Utilizing Data with Fidelity for Acceleration & Enrichment: Train and support teachers in utilizing data to accelerate and enrich students' needs during the instructional cycle via differentiated small group instruction, including ELO.

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

(a) Standard Progression & Rigor: When direct and guided instruction are standard aligned, then both teacher and students have a clear criteria by which to measure lesson implementation success and student success.

(b) Building Academic Vocabulary Knowledge & Application Skills: Struggling readers not only struggle with comprehension of full text; they also struggle with text-based questions, which include academic language from which they must decipher meaning in order to accurately respond to text-based tasks. If students do not become fluent in the working knowledge of academic language, they will struggle with responding to text-based questions.

(c) Utilizing Data for Acceleration & Enrichment: When teachers and support staff engage in a process where progress monitoring data is consistently and accurately utilized to make decisions for improving student performance, then a seamless pathway would have been created that addresses individual student and sub-group needs in a precise and timely manner.

Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)

Tier 1 - Strong Evidence

Will this evidence-based intervention be funded with UniSIG?

Yes

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Teachers will receive training in progression of standards and unpacking of the standards. Teachers and support staff will continuously engage in collaborative planning to ensure lessons are prepared with aligned tasks for scaffolding and student master based on the rigor of the standard.

Person Responsible: Claudia Ruiz (claudia.ruiz@browardschools.com)

By When: By August 18, 2023

Teachers will receive training in the use of strategies such as interactive notebooks and interactive word walls to build fluency in academic vocabulary. Elective teachers will receive training in using a rubric to assess students' understanding of targeted Word of the Week (W.O.W.) academic vocabulary in written response tasks aligned to their content.

Person Responsible: Claudia Ruiz (claudia.ruiz@browardschools.com)

By When: By September 30, 2023

Instructional coaches, district coaches and UniSig interventionist will work with teachers on collecting and analyzing data in order to best support students during all tiers of instruction - tiers 1, tier 2, and tier 3. Intervention will be provided accordingly. Students will be assigned to ESSR (ELL & ESE) support, ELO and wraparound support elective classes (ESE) based on identified needs. ELL students will receive support in Development Language Arts classes as well. In addition personnel providing push-in support (support facilitators) will support students in ELA classes based on the identified needs.

Person Responsible: Claudia Ruiz (claudia.ruiz@browardschools.com)

By When: By September 29, 2023 after F.A.S.T. PM1

ESE and ELL support personnel, literacy coach and district support facilitator, will engage in the push-in model to support students in small groups based on the ongoing disaggregation, analysis and deliberate planning with data to accelerate and enrich student learning.

Person Responsible: Claudia Ruiz (claudia.ruiz@browardschools.com)

By When: By September 29, 2023 after F.A.S.T. PM1

District support will provide quarterly lesson study type PDs with teachers in order to support teachers in standard focused data-driven planning and modeled lesson implementation with opportunities for observation, feedback and subsequent support.

Person Responsible: Claudia Ruiz (claudia.ruiz@browardschools.com)

By When: By October 30, 2023

#3. Instructional Practice specifically relating to Math**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed.

One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

Although there was significant improvement in Math proficiency (+13%), only 25% of both rising 6th and 7th grade students demonstrated proficiency on PM3, with over 30% of previously proficient 6th graders regressing to a level 2 or lower. For this reason, like ELA, Plantation middle school will utilize a multi-tiered approach to addressing deficiencies in instructional practices in Mathematics. These deficiencies include (a) teachers not utilizing planning tools such as the FLDOE Big Ms and MTRs to ensure that instruction involves the scaffolding towards and sustaining students at mastering the rigor of the grade level standard. It also limits teachers' ability to accurately identify gap areas from the previous year that may be having an impact on current grade level learning. In addition, PLC conversation observation, progress monitoring assessments as well as academic coach supported collaborative planning show that teachers are not consistently planning for the explicit instruction of standard-aligned academic vocabulary. Another factor of concern is that Math teachers still need support in building efficacy in effectively using real-time monitoring and triangulated data to better make adjustments in order to differentiate instruction to address learner needs. Based on the school's data trend, level 1 and 2 students, though making gains, are not making these gains in significant numbers to higher achievement levels; they are, instead, either regressing or remaining in the same achievement level bracket. In addition, there is a pattern of proficient students regressing to non-proficient. Likewise, there are students who were proficient pre-covid but who regressed during the pandemic but instruction has yet to close the students' learning loss in order for them to regain proficiency.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

By June 24, PLMS will increase the number of proficient students from 36% to 45% as measured by F.A.S.T. PM 3.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

The process involves the constant monitoring of data via PLC and data conversations and action planning between core teacher, ESSR personnel, district support, administration, instructional coaches, UniSig interventionist and support facilitators about specific student needs. This allows a better evaluation of student problem areas and for the alignment of appropriate resources and services via ESSR support, push-in support, and Extended Learning Opportunities (ELO) support.

In addition student learning outcome data, the academic coach, administration, and district support will engage in guided collaborative practice with teachers during scheduled common planning. This will ensure that the identified focused areas of the tiered instruction process (use of manipulatives, use of quality resources, student engagement in fluent use of content vocabulary, and data driven small group instruction for acceleration and enrichment) are included in lesson planning and instruction. Feedback will be provided to teachers in collaborative planning, data conversations and post-classroom walkthrough observations.

Person responsible for monitoring outcome:

Masharie Powell (masharie.powell@browardschools.com)

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

PLMS will strategically focus on providing professional development in the following:

(a) Standard Progression & Rigor: Professional development will build teacher capacity in utilizing FLDOE Big Ms and MTRs to improve instructional practices such as the use of manipulatives, appropriately scaffolding students to the rigor of the standard and Thinking Maps - Thought Tree - to help build students mathematical thinking and reasoning skills.

(b) Building Academic Vocabulary Knowledge & Application Skills: Teachers will be trained in utilizing the unwrapped standard process to identify and plan for the direct instruction of academic vocabulary that students must understand at the application level to demonstrate mastery of the standards.

(c) Utilizing Data with Fidelity for Acceleration & Enrichment: PLMS will build teacher fluency and efficacy in effectively utilizing data, including the Achievement Level Descriptors (ALD), to remediate and enrich student needs and for tiered teacher support.

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

Deliberate focus on building teacher capacity in standard focused instruction and data-driven tiered student intervention support will allow for consistent addressing of student learning gaps to improve math achievement. Coupling this with the use of manipulatives and thinking maps for question unwrapping will help to ensure that students are authentically and consistently engaged in higher-level thinking to strengthen their mathematical thinking and reasoning skills as determined by the standards.

Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)

Tier 1 - Strong Evidence

Will this evidence-based intervention be funded with UniSIG?

Yes

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Instructional coaches, district coaches and UniSig interventionist will work with teachers on collecting and analyzing data in order to best support students during all tiers of instruction - tiers 1, tier 2, and tier 3 in the math classroom.

Person Responsible: Latavia Pickney (latavia.pinckney@browardschools.com)

By When: Ongoing throughout instructional cycles

Training and support of teachers in consistently using manipulatives/learning aids to introduce new mathematics concepts, scaffold instruction, and remediate learner deficiencies as part of tiered instruction.

Person Responsible: Latavia Pickney (latavia.pinckney@browardschools.com)

By When: September 30, 2023

Students will be assigned to ESSR (ELL & ESE) support, ELO and other intervention; intervention will be provided accordingly. In addition personnel providing push-in support (support facilitators) will support students in Math classes in small groups based on their identified needs.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: October October 4, 2023

Literacy coach will continuously work with Math teachers to transform math classrooms as spaces where academic vocabulary is explicitly taught and continuously used in speaking and writing by students to develop students' application knowledge of mathematical language.

Person Responsible: Latavia Pickney (latavia.pinckney@browardschools.com)

By When: Begins by September 30, 2023

Train and support teachers in using MTRs, Big Ms, Achievement Level Descriptors (ALDs) and mathematical thinking processing map as part of the guided collaborative planning, lesson implementation, and student progress monitoring processes.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: By August 30, 2023

District support will provide quarterly lesson study type PDs with teachers in order to support teachers in standard focused data-driven planning and modeled lesson implementation with opportunities for observation, feedback and subsequent support.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: By October 30, 2023

#4. Instructional Practice specifically relating to Professional Learning Communities**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed.

One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

Plantation Middle 2023 results show minimal growth in ELA proficiency. In addition, there was only a 6% increase in 6th grade math and a 7% increase in 7th grade, with both grade levels having an overall proficiency of only 25%. To compound this, there is a pattern of a proficiency regression amongst the subgroup of 6th graders who matriculated to the grade level proficient. Just over 30% of 6th grade proficient students from the 2023 assessment regressed to a level 1 or level 2 on the PM3 assessment. In addition ESSA sub-groups of ELL, SWD and Economically Disadvantaged students have not met the Federal Growth index of 41% for multiple years. In order to stop the regression of proficient students and increase proficiency amongst non-proficient students, to increase the growth of ESSA sub-groups, as well as well as to increase overall student achievement beyond pre-pandemic performance levels. Scheduled data conversation sessions, PLC conversations, observations for teacher data preparation and practice reflection conversations well as lesson implementation observations have shown that there is a significant gap in teacher fluency in using data with consistency and fidelity to plan instruction for to meet student acceleration and enrichment needs; this also impacts teachers' ability to engage in authentic reflection and decision making for instructional practice improvement. Therefore, Plantation Middle school will continue to build teacher capacity in utilizing instructional practice and data-focused reflection protocols to sustain effective and authentic Professional Learning Communities along with guided collaborative planning. This is being done to continuously engage teachers in reflection on professional practice and the resulting learning outcomes, in order to make strategic decisions for teaching and learning improvement.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

By October 30, 2023, there will be an increase in the number of teachers who are using student progress monitoring data with fidelity to reflect on and make adjustments to instructional practice decisions to better teach, accelerate and enrich students as part of improving student mastery during the instructional cycle.

In addition, because of a strong PLC and collaborative planning process:

By June 2023, PLMS will increase student ELA, Math and Social Studies proficiency by a minimum of 10% as measured by state assessment results.

By June 2023, PLMS will increase student Science proficiency by a minimum of 16% as measured by the state assessment results.

By June 2023, PLMS will increase the school's Middle Grades Acceleration points by a minimum of 10 % as measured by the state assessment results.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

- a. Administrators and academic coaches will attend PLCs.
- b. Teachers will utilize a common instructional practice reflection and learning outcome analysis protocols part of the to reflect and make adjustment to planning based on student learning outcomes.
- c. Administrators will conduct quarterly data conversations with teachers to determine authenticity of data, to evaluate instructional practice adjustment needs and to provide teacher with additional practitioner improvement support.
- e. Professional development plan will directly address the teaching and learning gaps determined in PLC and via data conversations, and as determined by teacher needs survey.

Person responsible for monitoring outcome:

Masharie Powell (masharie.powell@browardschools.com)

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

Plantation Middle school will continue to build teacher capacity through whole school, small group, and individual professional development support in effectively utilizing district, state, and school developed tools and resources to disaggregate, triangulate, analyze and respond to data with the primary focus on (a) teachers reflecting on and adjusting their practice based on weekly student learning outcomes data and (b) teachers engaging in authentic guided collaborative planning to address students acceleration and remediation needs.

During this multi-prong process, instructional leaders (coaches and administration) will continuously engage teachers in reflection on their weekly instructional decision. This is an evidence-based approach which will pin-point which students instruction worked for and who were the least impacted as it relates to progression to mastery. Teachers will then collaborate with peers, instructional coaches and/or administration in a guided collaborative planning process to make strategic adjustments to close gaps in lesson planning and lesson implementation.

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

Research shows that when teachers collaborate in a reflective process to address student learning outcomes and glean from the sharing of others, instructional practices will improve; this will positively impact student learning results. This leads to capacity building and collective efficacy. John Hattie's Visible Learning research has shown that collective efficacy yields a 1.57 growth impact on student learning, with .4 yield being the marker for high impact.

Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)

Tier 1 - Strong Evidence

Will this evidence-based intervention be funded with UniSIG?

No

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

All instructional and support staff will participate in a review of the PLC process to include purpose, characteristics, the impact of engagement in an authentic and systematic data-driven PLC process on teaching and learning improvement.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: Spetember 6, 2023

Professional development for instructional and support staff in effectively utilizing progress monitoring data resources, lesson implementation and reflection protocol to assess impact of lesson not just on the class overall but on students by their achievmeent levels and demographic sub-group classification.

Person Responsible: Latavia Pickney (latavia.pinckney@browardschools.com)

By When: By September 30, 2023

PLC groups will meet weekly to discuss standard-focused instruction and weekly student achievement, reflect on lesson impact and for which students, analyze the impact of specific instruction short falls by student sub-groups (achievement levels & ESSA) and share ideas on how to make adjustments for improvement for both teacher & students.

Person Responsible: Latavia Pickney (latavia.pinckney@browardschools.com)

By When: September 15, 2023

Teachers will meet in weekly scheduled content-focused grade level guided collaborative planning to adjust and/or create standard focused lessons to include appropriate grade level targets, grade level aligned tasks, appropriate scaffolding activities for direct instruction, as well as data-driven differentiated small group rotation to support student acceleration and enrichment needs.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: By September 18, 2023

#5. Instructional Practice specifically relating to Science**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed. One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

Although Biology scores increased from 53% to 77% for the 2022-2023 school year, 8th grade science scores increased by only 1% (18% to 19%) - over 40 percentage points below the state average and one of the lowest 5 performing middle schools in the district in this assessed area. Observation data shows that teachers need more development in understanding the science standards as well as how to effectively and consistently incorporate hands-on activities as part of the instructional cycle to improve student engagement and learning. In addition, there has been a practitioner gap in effectively utilizing data to address student remediation needs. Teachers, therefore, need professional development and tiered practitioner support in the aforementioned areas at the planning, implementation and post-implementation reflection stages for teaching improvement.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

By June 2024, Plantation Middle school increase science proficiency to at least 30% as measured by state assessments.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Monitoring will take place via consistent classroom observation and teacher feedback cycles. In addition coaches and administration will be able to assess practitioner gaps in the focus areas during weekly scheduled collaborative lesson planning sessions, quarterly student learning outcome data conversations as well as during weekly scheduled content focused PLCs, and provide support accordingly.

Person responsible for monitoring outcome:

Masharie Powell (masharie.powell@browardschools.com)

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

PLMS will focus on building teacher capacity in the core areas of (a) unwrapping the standards standard aligned lesson planning and implementation to the rigor of the grade level standard; (b) consistent incorporation of labs/hands-on learning as part of the science instructional cycle; (c) effective use of data for small group instruction/differentiation for remediation and or enrichment and (d) explicit instruction of academic vocabulary.

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

Building teacher efficacy has been identified in research as one of the most effective strategies for student learning improvement. It is important to help teachers become fluent in being deliberate in their practice in order to effectively engage students in the teaching-learning process, as well as to identify and address student standard-aligned learning needs in a timely and effective manner.

Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)

Tier 1 - Strong Evidence

Will this evidence-based intervention be funded with UniSIG?

Yes

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Provide teacher professional development and continuous support in utilizing the unwrapping standard process to plan for instruction in, but not limited to, TLAC, application of academic vocabulary, hands-on learning in science using labs, and data decision making for small grouping interventions.

Person Responsible: Tawanna Allen (tawanna.allen@browardschools.com)

By When: Started July 20, 2023

PLMS science support personnel and district science will engage in weekly scheduled PLCs & guided collaborative planning with subsequent support for lesson implementations and for modeling of implementation expectations.

Person Responsible: Tawanna Allen (tawanna.allen@browardschools.com)

By When: August 28, 2023

Literacy Coach will provide professional development, planning and push-in support with Science teachers in implementing strategies to support integrated literacy skills in science instruction, with a primary focus on working knowledge of academic vocabulary.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: September 30, 2023

8th grade science teachers will receive one-on-one support in lesson planning with focus on integrating labs/hands-on learning as part of the science instructional cycle.

Person Responsible: Tawanna Allen (tawanna.allen@browardschools.com)

By When: September 30, 2023

District support will provide quarterly lesson study type PDs with teachers in order to support teachers in standard focused data-driven planning and modeled lesson implementation with opportunities for observation feedback and subsequent support.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: October 30, 2023

Select science teachers will receive weekly mini-professional development support based on lesson implementation review, student learning outcome results and curriculum requirement to include but not limited lab preparation and creating of teacher monitoring steps for successful implementation and impact.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: By November 30, 2023

#6. Positive Culture and Environment specifically relating to Early Warning System**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed.

One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

Based on the 2021-2022 discipline data, there were 777 referrals with 608 (78%) occurring in a classroom setting during instructional time. Within this, there were 296 infractions of defiance of authority, which led to these students having 2-3 days out of school suspension and 124 students with multiple-days internal suspension. This means that students, some being repeat offenders, are missing critical instruction time. The goal for 2022-2023 was to reduce the end of year referral count by at least 50%, however, the 2023 school year ended with the referral count being lowerd by only 25%, with 256 (44%) of the the referrals being from classrooms, including Physical Educationclasses in the gymnasium. This low reduction rate contributed to repeated student absence from direct teacher instruction, which inadvertently impacts student performance results. Therefore, since the 2022-2023 goal was not met in this area, Plantation Middle will continue to be intentional about providing interventions for school-wide behavior as the improvement plan is intentional about teaching and learning. Primary focus will be on coaching behaviors for both students and adults through a restorative culture structure in an attempt to reduce suspensions from the classroom, so as to decrease student absences due to student behavior choices and teacher non-de-escalation and/or inflammatory approaches to student behavior.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

Quarterly disicpline referral reports for SY 2023-2024 will show a minimum 50% decreasein classroom generated referrals when compared to SY 2022-2023 quarterly disciplinereports, with classroom referrals decreased by a minimum of 50%.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Student behavior and interventions will be part of the MTSS system. Students behavior and repsonses to school rules and systems will be tracked using the PBIS Rewards system. In addition, the behavior specialist will monitor referrals and will provide support to teachers schoolwide, by grade level and individually via classroom visits, observations, as well as classroom behavior management integration as part of lesson planning to ensure that teachers are prepared with behavioral mangement and classroom systems and supports for effective lesson implementation with minimal disruption and distractions relating to student behavior. The anticipated impact is reduced classroom refererrals and less student absences from class during instructional time due to behavior. This personnel will also push into classrooms of teachers with high referrals to identify areas needing on-the-spot intervention modeling support for the teacher.

Person responsible for monitoring outcome:

Ackimo Charles (ackimo.charles@browardschools.com)

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

Plantation Middle School will address school culture transformation in the area strenghtening adult-student relationships using approaches such as restorative culture, as well as impementing a rewards system to track and acknowledge student success as aligned to the school goals for both academics and behavior. These successes will be highlighted and acknowledged openly in different ways throughout the school as models of the school's 2023-2024 theme of Speak Excellence, Model Excellence, Achieve Excellence. Students who are struggling with behavioral choices and self-regulation and who incur discipline referrals, will participate in the PLMS Teaching Responsible Academic and Coping Strategies (T.R.A.C.S.)

program, which houses internal suspension. Here students will go through behavioral reflection and self-regulation improvement lessons as interventions behavior, with the anticipated result of decreasing the number of repeat offenders.

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

According to John Hattie's Visible Learning, (a) Positive Behavioral Intervention programs, if done consistently and with fidelity, yields a year's worth impact of .62, (b) Positive Peer Influences yields a .53, (c) Teacher-Student relationships, .52, (d) Self-Regulation Strategies - .52, (e) Parental Involvement - .50.

Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)

Tier 1 - Strong Evidence

Will this evidence-based intervention be funded with UniSIG?

Yes

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Introduce staff to the the school's theme of Speak Excellence, Model Excellence, and Achieve Excellence with these tenets being the expectations for all stakeholders. Staff will then be coached in the progressive discipline plan to include the TRACS program and the progressive discipline steps to follow to support the change in action of student behavior. This will also include the PBIS Rewards point system to track and reward students' positive behavior and the meeting of expectations.

Person Responsible: Tariq Qaiyim (tariq.qaiyim@browardschools.com)

By When: By August 18, 2023

Students receive mini-lessons in the student code of conduct for Broward County Public Schools, including disciplinary actions.

Person Responsible: Ackimo Charles (ackimo.charles@browardschools.com)

By When: Begins August 21, 2023

Administrators conduct behavior management grade level assemblies to introduce students to the the school's theme of Speak Excellence, Model Excellence, and Achieve Excellence with these tenets being the expectations for all stakeholders. Administrators will also review the progressive discipline process, including the TRACS program. There will also be a review of the PBIS Rewards point system to track and reward students' positive behavior and the meeting of expectations.

Person Responsible: Ackimo Charles (ackimo.charles@browardschools.com)

By When: By August 28, 2023

Begin implementing PBIS Rewards System. Parents will be informed of the Rewards process at the September School Advisory Council meeting as well as through other modes of communication (flyers, website, parentlink calls, parent night events throughout the year).

Person Responsible: Tawanna Allen (tawanna.allen@browardschools.com)

By When: During 1st marking period upon UNISIG funding.

#7. Instructional Practice specifically relating to Instructional Coaching/Professional Learning**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed. One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

Plantation Middle demonstrates a pattern of underperformance in multiple core content areas, when compared to the state's proficiency outcomes. The 2023 state assessment data shows Plantation Middle with a 25% lower points difference than the state in science. ELA results show an 11% point gap to the state's 47%, with 6th and 8th grades demonstrating a double-digit underperformance gap of 14% and 11% respectively. This underperforming pattern is also evident in Math which, overall, is 20% lower than the state's performance; 6th and 7th grades math are specific major gap areas as their results show a 29% and 23% points below the state's performance of 54% and 48% respectively. 6th grade, for both ELA and Math, is showing an issue of incoming proficient students not maintaining proficiency. The overarching factors contributing to these gaps are teachers needing more capacity building in unwrapping and understanding of the progression of standards. There is also a gap of teachers consistently analyzing data to reflect on instructional practice decisions and adjustments to improve student performance. These factors heavily impact instructional planning as activities and tasks are, at times, not meeting the rigor of the standard and/or addressing students' needs for remediation and enrichment. In addition, there is a low usage of hands-on learning in science - a research-based practice that can improve student performance in this core subject area. Math has a need to engage students in more mathematical thinking and reasoning to build their decision making skills for concept application; this is an implication that teachers should, therefore, be more deliberate in incorporating the MTRs in their lesson planning and lesson implementation.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

By June 2023, PLMS will increase student ELA, Math and Social Studies proficiency by a minimum 10% as measured by state assessment results.

By June 2023, PLMS will increase student Science proficiency by a minimum 16% as measured by the state assessment results.

By June 2023, PLMS will increase the school's Middle Grades Acceleration points by a minimum of 10 % as measured by the state assessment results.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Monitoring will take place via weekly classroom walkthroughs with feedback to teachers for improvement. In addition to this, evidence will be derived through weekly PLC teacher lesson implementation reflection process (in which teachers should provide evidence of student work) as well lessons developed through the scheduled guided collaborative planning sessions with academic coaches; administration will ascertain further insight through quarterly data conversations with teachers and coaches.

Person responsible for monitoring outcome:

Masharie Powell (masharie.powell@browardschools.com)

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

Plantation Middle will continue to focus on building teacher capacity to address deficiencies to close student achievement gaps. Adult growth development will occur via whole-school, department, and individual trainings, small group coaching, as well as individual tiered teacher coaching by both school and district coaches. Professional development topics include but will not be limited to Utilizing Manipulatives

in Math, Teach Like A Champion Instructional Strategies (TLAC) , Lesson Planning with Effective Use of Adopted Core & Supplemental Resources such as the BIG Ms, B.E.S.T Progression of Standards, " Effectively Utilizing Data for Remediation & Enrichment through the PLC Process", Unwrapping the New Standards for Social Studies, Hands on Learning in Science, and Word Walls and Interactive Notebooks for Academic Vocabulary Development schoolwide. Professional development and subsequent one-on-one teacher support will occur before, during and after school. PLMS will engage in teacher spotlights to highlight successful implementations with student results.

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

When teachers are supported to meet expectations and celebrated in the process, then collective efficacy will grow within the school. Even though over 60% of PLMS students contend with the barriers associated with underperformnce due to low socio-economic status (as measured by FRL), researcher Alberta Bandura (1990) and as supported by meta-analysis research by John Hattie shows that collective teacher efficacy on student academic performance is higher than the negative effects of low socioeconomic status, yielding a 1.57 year's worth of growth impact (.4 considered to be high impact yield) compared to socio-economic status with a yield of .57 impact on learning.

Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)

Tier 1 - Strong Evidence

Will this evidence-based intervention be funded with UniSIG?

Yes

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Conduct student performance data and classroom observation data with teachers and support staff during planning. Review goals and vision for 2023-2024 SY to include tiered teacher support plan and pathways to support including professional development, coaching, PLC and guided collaborative planning.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: August 18, 2023

Convene professional development committee to finalize PD calendar.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: By August 30, 2023

Meet with district support team to share teacher support needs and request committments for 2023-2024 SY

Person Responsible: Tariq Qaiyim (tariq.qaiyim@browardschools.com)

By When: August 8, 2023

Begin classroom walkthrough, PLCs, guided collaborative planning and teacher PD and supports implementation

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: By September 18, 2023.

Coaches will submit weekly coaching logs to show coaching support to be provided to teachers. Logs will be examined for specific target goals based on department and or grade level improvement action plan, and or individual teacher needs - based on classroom observations and or teacher requests.

Administration will assess outcome of coaching support via weekly data-driven instructional practice

outcomes and during weekly guided collaborative lesson planning conversations; assessment will also occur during quarterly coach-teacher-administrator data conversations. Administrator will also conduct weekly calibration walks with coaches to look-for support implementations in practice. Feedback will be provided to both coach and teacher as part of a cyclical process for continuous improvement.

Person Responsible: Masharie Powell (masharie.powell@browardschools.com)

By When: By Septemebr 18, 2023.

CSI, TSI and ATSI Resource Review

Describe the process to review school improvement funding allocations and ensure resources are allocated based on needs. This section must be completed if the school is identified as ATSI, TSI or CSI in addition to completing an Area(s) of Focus identifying interventions and activities within the SIP (ESSA 1111(d)(1)(B)(4) and (d)(2)(C).

School improvement funding is developed using a SWOT analysis in order to identify areas needing intervention for improvement. The leadership team, along with input from SAC, create action plans aligned with core curricula departments. This, in turn, determines funding allocation aligned to personnel development and support , remedial intervention and intervention resources to faciliate improvement in the identified focus areas.

Title I Requirements

Schoolwide Program Plan (SWP) Requirements

This section must be completed if the school is implementing a Title I, Part A SWP and opts to use the SIP to satisfy the requirements of the SWP plan, as outlined in the ESSA, Public Law No. 114-95, § 1114(b). This section is not required for non-Title I schools.

Provide the methods for dissemination of this SIP, UniSIG budget and SWP to stakeholders (e.g., students, families, school staff and leadership and local businesses and organizations). Please articulate a plan or protocol for how this SIP and progress will be shared and disseminated and to the extent practicable, provided in a language a parent can understand. (ESSA 1114(b)(4))

List the school's webpage* where the SIP is made publicly available.

In addition to being posted on the school's website, the SIP will be disseminated to stakeholders at all levels in the following manner:

Internal Stakeholders

Faculty & Staff: The SIP will be disseminated in faculty meetings, academic department meetings, and grade level academic and behavioral management meetings. The components for the SIP will be communicated as the pillars of the work to improve instructional practice, student learning outcome, and school culture for all stakeholders.

Students: Teachers and support staff will engage students in quarterly data conversations and goal setting so, they too, gain an understanding of how their efforts contribute to the overall success of the school.

School Leadership: The SIP will be part of bi-monthly leadership meetings to benchmark progress towards the identified goals

External Stakeholders:

Parents and Community - In addition to the school web-site, parents and community partners will be continuously updated on the SIP and the progress towards the school meeting the goals in monthly SAC meetings and SIP focused parent engagement nights. The school will seek the partnership of Broward County Public Schools Bilingual Department to translate the key components of the SIP focus areas for dissemination to parents. Parent night invitations will also be translated in the languages represented in the student body. The school will also seek the assistance of bi-lingual teachers, support staff, and district personnel to assist with translation during academic parent nights in order for parents to understand how the academic area of focus and the requirement for student success align with overall school improvement.

Describe how the school plans to build positive relationships with parents, families and other community stakeholders to fulfill the school's mission, support the needs of students and keep parents informed of their child's progress.

List the school's webpage* where the school's Family Engagement Plan is made publicly available. (ESSA 1116(b-g))

Plantation Middle School will build positive relationships with parents, families and other stakeholders by:

A. Ensuring that there is a committed PTA to bridge the gap between stakeholders as well as to support initiatives such as celebrating student performance success.

B. PLMS will focus on bridging the gap between home, school and community by engaging families and community partners in cultural events, hands-on academic themed evenings, as well as a parent university that will assist parents in navigating the electronic gradebook, understanding academic pathways with opportunities for matriculation into dual enrollment programs, understanding the impact of attendance on student success, as well as engaging parents in progress monitoring data conversations and goal-setting with their child.

Describe how the school plans to strengthen the academic program in the school, increase the amount and quality of learning time and help provide an enriched and accelerated curriculum. Include the Area of Focus if addressed in Part III of the SIP. (ESSA 1114(b)(7)ii)

Plantation Middle School will:

(a) Ensure that students are strategically placed in classes for their optimum success with a focus on tiered placement based on student data, in order to effectively support students according to their learning gaps and instructional support needs.

(b) Ensure that each content area has a mapped out instructional block design that supports quality bell-to-bell instruction and that teachers are conducting daily instruction in a learning environment that has clearly defined structures and systems that reduce teaching and learning disruption and effective transition between activities.

(c) Ensure all academic departments utilize a comprehensive Instructional Focus Guide to include unwrapped standards, key standard vocabulary, suggested researched-based strategies for each standard, standard aligned performance tasks, as well as embedded progress monitoring and data conversation plans as part of setting and sustaining the tone of high expectations for quality planning and instruction to meet the learning needs of all students. This guide will be utilized as part of the guided collaborative lesson planning and PLC decision making processes which are scheduled in the master schedule and schoolwide master calendar respectively.

(d) Ensure that data is utilized consistently as part of the PLC and the collaborative planning process to provide acceleration and enrichment support within the classroom, as part of the ESSR support process and for focused Extended Learning Opportunities (ELO).

If appropriate and applicable, describe how this plan is developed in coordination and integration with other Federal, State, and local services, resources and programs, such as programs supported under ESSA, violence prevention programs, nutrition programs, housing programs, Head Start programs, adult education programs, career and technical education programs, and schools implementing CSI or TSI activities under section 1111(d). (ESSA 1114(b)(5))

N/A

Optional Component(s) of the Schoolwide Program Plan

Include descriptions for any additional strategies that will be incorporated into the plan.

Describe how the school ensures counseling, school-based mental health services, specialized support services, mentoring services, and other strategies to improve students' skills outside the academic subject areas. (ESSA 1114(b)(7)(iii)(I))

Plantation Middle School ensures that at least one school counselor is available throughout the school day to address students and parents concerns and to provide resources as they relate to challenges in areas of identity, bullying, mental health, racial discrimination and justice. The primary goal of the school's student support services is to foster the growth and development of students to become productive citizens by establishing a strong foundation for lifelong learning and developing skill-sets to support positive social interaction management for self and others in a diverse community.

Describe the preparation for and awareness of postsecondary opportunities and the workforce, which may include career and technical education programs and broadening secondary school students' access to coursework to earn postsecondary credit while still in high school. (ESSA 1114(b)(7)(iii)(II))

Through the school counseling program at Plantation Middle, all students are exposed to postsecondary opportunities via classroom instruction utilizing Naviance career planning portal. Students in 8th grade are further supported with "hands on" instructions at Junior Achievement USA (JA BizTown.). Beginning this academic school year students preparation for postsecondary awareness and opportunities will be enhanced with the introduction of a new magnet program; Achieving Career Equity for Students (ACES). Students will be able to focus on a career path from elementary into middle school and onto high school within the schools' feeder pattern.

Describe the implementation of a schoolwide tiered model to prevent and address problem behavior, and early intervening services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act. 20 U.S.C. 1400 et seq. and ESSA 1114(b)(7)(iii)(III).

Plantation Middle School addresses student behavior utilizing the Broward County Public Schools progressive discipline process. This process allows for tiered intervention to be afforded to students as part of student support services. Students begin the year with explicit lessons aligned to the BCPS Student Code of Conduct Handbook and the PLMS internal pillars of expectations for a safe environment conducive to social and emotional growth and academic success. Students receive intervention support through the RtI process, which includes working directly with parents, ESE and ESL support staff, school counselors, as well as the school psychologist and social worker. Interventions are documented in BASIS in order for the MTSS team to develop a plan of action to support the students' improvement in problematic areas.

Describe the professional learning and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments, and to recruit and retain effective teachers, particularly in high need subjects. (ESSA 1114(b)(7)(iii)(IV))

Faculty and staff receive professional learning through a multi-tiered support process based on school wide, grade level and individual teacher student learning outcome data as well as staff expressed needs. PLMS collaborates with district support personnel to work with teachers in disaggregating and analyzing student data as part of the PLC and collaborative planning process embedded within each instructional cycle. Administrators and academics support conduct classroom walkthroughs to not only identify target areas for school, department and individual teacher support but also to make adjustments to the professional development calendar for further staff development support. One-on-one data conversations are conducted with faculty and support staff to ascertain further development needs. District provides support by collaborating with leadership and provide training and tiered personnel support as needed.

Describe the strategies the school employs to assist preschool children in the transition from early childhood education programs to local elementary school programs. (ESSA 1114(b)(7)(iii)(V))

Budget to Support Areas of Focus

Part VII: Budget to Support Areas of Focus

The approved budget does not reflect any amendments submitted for this project.

1	III.B.	Area of Focus: Instructional Practice: Intervention				\$23,727.50
	Function	Object	Budget Focus	Funding Source	FTE	2023-24
	5100	120	0551 - Plantation Middle School	UniSIG		\$15,360.00
			<i>Notes: Extended Learning Opportunities Stipends Provide stipends for eight teachers for ELO camps in Math and ELA. These intervention sessions will be for grades 6th-8th students with specific targets on students in our ESSA groups, lowest quartile as well as bubble level 2 students who do not meet the prior two criteria; all students will be receiving support for remediation and enrichment based on ongoing progression monitoring data. Instruction strategies and materials will be selected based on data. Early intervention that aligns with the instructional cycle assist PLMS to reach the SIP goals for the respective areas and student sub-groups. Sessions for this funding are scheduled to run from November 2023 to April 2024. We are also requesting funding for clerical support to assist with attendance & student retention as well as data entry and materials preparation. School administrator will serve as coordinator with responsibilities to include collaborating with instructional coaches to ensure that curriculum and materials are appropriate based on progress monitoring data and ELO learning outcome goals. The coordinator will also spearhead student recruitment and retention, staff recruitment and retention, lesson implementation observations, student learning outcome monitoring and student and staff success celebration. Stipends will be paid at the hourly rate of \$40.00/hr. ELO Camp Time: 16 weeks x 3 hours/week = 48 hours ELO Camp Stipends: 8 teachers x 48 hours x \$40/hour = \$15,360</i>			
	5100	130	0551 - Plantation Middle School	UniSIG		\$1,920.00
			<i>Notes: Extended Learning Opportunities Stipends ELO Camp Coordinator Stipends: 1 Coordinator x 48 hours x \$40/hour = \$1,920</i>			
	5100	220	0551 - Plantation Middle School	UniSIG		\$1,383.00
			<i>Notes: FICA (Social Security): ELO Stipends</i>			
	5100	240	0551 - Plantation Middle School	UniSIG		\$173.00

			<i>Notes: Workers Compensation: ELO Stipends</i>			
	5100	250	0551 - Plantation Middle School	UniSIG		\$18.00
			<i>Notes: Unemployment: ELO Stipends</i>			
	5100	510	0551 - Plantation Middle School	UniSIG		\$3,873.50
			<i>Notes: General - Classroom Supplies Purchase items to support building of academic vocabulary and other enrichment and remediation skills via academic notebooks, word walls, hands-on learning, etc. The supplies that will be purchased are: - Composition Books - Rolled Scalloped Bulletin Board Borders - Bordette Border - Pacon Fadeless Bulletin Board Art Paper Roll - X-ACTO Mighty Mite Electric Pencil Sharpener - Recycled Manila File Folders, 1/3-Cut Tab, Letter Size - File Folders, 1/3-Cut Tab, Letter Size</i>

			<i>Notes: Social Science Department - Classroom Supplies Purchase items to support building of academic vocabulary and other enrichment and remediation skills via academic notebooks, word walls, hands-on learning, etc. The supplies that will be purchased are: - Amazing State Poster Pack - Board Poster - Marker Sharpie Fine Metallic - Timers Small Sand Combo - Scissors Kids 5 In Blunt School Smart - Construction Paper 9x12 Hot Colors - Paper Construction Childcraft - Marker Crayola Washable Fine Line - Marker Dry Erase Low Odor - Pencil Pre-sharpened Ticonderoga #2 - Pencil #2 Ticonderoga Black - Paper Printer Scroll Theme - Lettermark MP Gray - Ruler Flexible 12 In - School Smart - Box Pencil - School Smart - Pencils Colored Crayola - Pencils Colored Prang Thick - Glue Stick Elmers Restick School Glue - Glue Washable Crazart White - Glue Glitter Crayola Washable Asst - Glue Gun - Glue Stick - Tape Scotch Caddy Pack</i>			
3	III.B.	Area of Focus: Instructional Practice: Math				\$95,492.00
	Function	Object	Budget Focus	Funding Source	FTE	2023-24
	5100	120	0551 - Plantation Middle School	UniSIG	1.0	\$62,805.00
			<i>Notes: Resource Teacher Hire Resource Teacher/Interventionist to assist with level 1 and 2 students (grades 6-8) on increasing their math proficiency; will collaborate with math teachers and work with students in small groups to ensure students are receiving differentiated instruction according to data. This will include ESE & ELL students as well as Algebra 1 students. The Resource Teacher/Interventionist will create and maintain an atmosphere that generates high expectations and enthusiasm for learning by infusing critical thinking skills, application skills, interpersonal skills, and technology into an aligned curriculum and assessment process, resulting in measurable student achievement gains for all students in order to meet district and state standards.</i>			
	6400	130	0551 - Plantation Middle School	UniSIG		\$6,000.00
			<i>Notes: Co-Teaching & Teacher/Student Tier Support - Math Although Plantation Middle Math scores show an overall increase, 8th graders who had the highest score of 47% have matriculated to high school. The strong deficit remains in rising the 6th and 7th graders who had only 25% proficiency; there is a pattern of proficient incoming 6th graders regressing, as evidenced by over 30% of proficient 6th graders on PM3. Plantation Middle School is requesting a stipend for 1 site-based math coach to engage in collaborative planning, data analysis and daily peer teaching with new and struggling math teachers. The site-based coach will work with a total of three teachers. One of these teachers is new to the department, coming from the primary level. One other teacher had only 11 students moving to proficiency in 2023 PM3. The third teacher had one of the lowest observation scores in the school for 2023, thus is struggling in lesson implementation with level 1 and level 2 students, which includes the lowest quartile and ESSA students. The goal is to use this content expert level of daily support and intervention to improve teacher pedagogical practices and increase small group intervention support to tier 1 and tier 2 learners in the general math classroom. This tiered teacher intervention will occur during the tiered teachers' and coach's planning periods and as push-in support during agreed-upon periods based on student learning outcome data. The stipend will be budgeted at \$6,000/teacher, which is the district's standard rate for teachers who have a daily schedule working with students during their planning.</i>			

			<i>Requesting Stipend for 1 site-based Math Coach: \$6,000 for completion of the year of support.</i>			
	5100	210	0551 - Plantation Middle School	UniSIG		\$8,523.00

4	III.B.	Area of Focus: Instructional Practice: Professional Learning Communities				\$0.00
5	III.B.	Area of Focus: Instructional Practice: Science				\$13,918.00
	Function	Object	Budget Focus	Funding Source	FTE	2023-24
	6400	120	0551 - Plantation Middle School	UniSIG		\$6,000.00
			<i>Notes: Science proficiency increased by only 1% increase in 2023 and stands as one of the lowest performers in the district with 8th-grade science being only 19%. Plantation Middle School is requesting a stipend for 1 site-based science support personnel to engage in collaborative planning, data analysis and daily peer teaching with four struggling science teachers during the school day. All of these teachers have at least one year of experience but observation feedback data is showing gaps in the aforementioned areas. One teacher, although a veteran, is struggling with rigorous instruction for</i>			

			advanced learners. The other two, based on observations, are struggling in lesson implementation with level 1 and level 2 students, which includes the lowest quartile and ESSA students. The goal is to use this content expert level of daily support and intervention to improve teacher pedagogical practices and increase small group intervention support to tier 1 and tier 2 learners in the general math classroom. This tiered teacher intervention will occur during the tiered teacher's and coach's planning periods and as push-in support during agreed-upon periods based on student learning outcome data. The coach will be paid \$6,000 for the completion of the year of support. The stipend will be budgeted at \$6,000/teacher, which is the district's standard rate for teachers who have a daily schedule working with students during their planning.			
	6400	120	0551 - Plantation Middle School	UniSIG		\$5,280.00
			Notes: Adult Learning for Science The four teachers in the science department are at a tier 3 level of support from either being new to teaching, new to the content or based on low evaluation scores. Plantation Middle School is requesting extended adult learning support via a highly effective science teacher/district personnel who will provide weekly professional development to two science teachers based on ongoing progress monitoring data, classroom observations, and teacher self-identified needs. This support will happen on two weekdays after school for one personnel and on Saturdays for the 2nd personnel (for 1.5 hrs. each day) . The professional development support will last for the full school year, beginning the first week of September and ending the last week in May. This department focused professional development will include recorded lesson review with feedback as well as related planning and lesson preparation including preparation of mini-science labs to increase student engagement in and application in science content. The support personnel will also work with the Biology teacher. Request for 2 teachers and 2 Facilitators to meet weekly for training/professional development from September 2023 to May 2024. Stipends will be paid at \$40/hour. Training/PD Time: September 2023 - May 2024 = 11 weeks Training/PD Stipends: 2 teachers x \$40/hour x 1.5 hours/session x 2 sessions/week x 11 weeks = \$2,640 Training/PD Facilitators: 2 facilitators x \$40/hour x 1.5 hours/session x 2 sessions/week x 11 weeks = \$2,640

	6400	120	0551 - Plantation Middle School	UniSIG		\$48,000.00
			Notes: Professional Development/Training - Schoolwide Factors Provide stipends to 40 teachers to engage in thirty hours of professional development. Plantation Middle will focus on building teacher capacity in core foundation practices that are necessary for teaching and learning improvement. The 2023 data shows PLMS still underperforming compared to the state and district in Math, Science, English Language Arts, and Civics, a survey conducted with teachers and members of the leadership team shows that there is no consistency in the use of data to drive instruction and practioner development needs continued development in authentic PLC engagement and guided collaborative planning in order to implement quality, impactful differentiated lessons that explicitly address learner needs. Staff development will take place during the 2023-2024 school year. The schedule is 3-hours of professional learning per month, beginning in September 2023 through June 2024. Also, data conversations show that teachers need assistance with developing engaging and effective lesson plans. In addition to this, the core areas of Math and English Language Arts have recently adopted a new curriculum. Therefore, Professional development will focus on closing the achievement gap by building teachers' knowledge, fluency and capacity in planning and implementing effective standard focused lessons, utilizing data to assess student needs for differentiated instruction and to ensure that Professional learning communities are focused on these needs for collaborative planning with using learning engagement tools such as Nearpod and becoming fluent in implementing adopted district curriculum resources. In addition teachers will receive support form district experts in how to meet the needs of ESSA sub-group students in the core classroom and how to effectively utilize resources such as the ESSR teacher and the ESE support facilitators to address academic needs of these students. Monthly topics will include "Lesson Planning with Effective Use of Adopted Core & Supplemental			

			Resources", "Effective Lesson Implementation with Monitoring & Feedback", "Utilizing Data for Remediation & Enrichment through the PLC Process", "Technology Integration in Instruction", "Data Triangulation & Mid-Point Planning for Improvement". If all funds are not utilized in this period, then a phase two will occur based on classroom walkthroughs and evaluation observations, PLC conversations, lesson plan development assessment, instructional coaches' feedback, and tiered teacher intervention needs as identified by department chairs, district instructional facilitators and administration. District Trainers, School Based Coaches and Master Teachers from within the district, will facilitate the PD sessions. Stipends for teachers will be paid at the hourly rate of \$40.00/hr. Facilitators will be paid at an hourly rate of \$40/hr. - PD/Training Stipends: 40 Teachers x 30 hours x \$40/hr. stipend = \$48,000			
	5100	643	0551 - Plantation Middle School	UniSIG		\$16,310.00
			Notes: Technology - Recordex Boards Purchase four Recordex SimplicityTouch 4 Interactive Panel 75"boards @ \$3,079 each to be used for classroom teaching enhancement. For use by students in grades 6th-8th, including ESSA sub-group students in ELA and Math classes. Including this technology for use in more classrooms will assist teachers in planning for and implementing more interactive lessons to support struggling learners. The devices will be distributed as follows: (2) ELA classroom based Recordex Board for 7th and 8th graders, (2) Math classroom based Recordex Board for 6th graders. - (4) Recordex Boards @ \$3,079.65 - (4) Recordex Adjustable Floor Stands @ \$997			
	5100	519	0551 - Plantation Middle School	UniSIG		\$1,500.00
			Notes: Technological Supplies Purchase technology supplies to replace/repair broken or lost computer accessories and peripherals. This will ensure continued and consistent use of technology integration to cognitively engage learners across all levels during planned lesson implementation. The items to be purchased are: - Logitech Laser Presentation Remote - Maxell Stereo Headphones - SIIG Wireless 1080p HDMI Video Kit - Logitech Desktop MK320 Wireless Keyboard & Mouse - StarTech USB2HAB15 15' USB 2.0 A to B Cable - NXT Technologies NX29738 4' HDMI 4K Audio/Video Cable - 4XEM 4XHDMIMM50FT 50' HDMI Audio/Video Cable - Monoprice 22AWG Cable - NXT Technologies Audio Cable - Cyber Acoustics Computer Speaker			
	6400	120	0551 - Plantation Middle School	UniSIG		\$5,760.00
			Notes: Vertical Alignment PLC PLMS will engage in quarterly Closing the Matriculation Gap in ELA and Mathematics through vertical alignment conversations and intervention action planning amongst teachers of grades 6th-8th. The PLC will also include 5th grade elementary feeder school teachers to address learning gaps coming into the secondary level and instructional/student learning support practices that should be addressed at the elementary level in order to close those incoming gaps. These PLC conversations will use F.A.S.T and PM data as well as ongoing formative assessments at both the primary and secondary levels to assess the impact of agreed upon implementations and adjustments that need to be made for greater impact on both teaching and learning. Teacher growth needs, based on the quarterly monitored action plan, will be attended to through the Professional Development process and tiered coaching support. The first three quarters will be practice reflection conversations with modification based on instructional practice impact on student learning outcome. The focused conversations and action planning will include student performance data for each quarter, relevant instructional standards of focus based on vertical progression of the standard and current student learning outcomes in those respective areas, and intentional approaches/strategies action planning to close the identified instructional and learning gaps. Requesting funds for 18 instructional personnel (14 teachers and 4 academic coaches - 2 site-based and 2 district) for 2 hours each quarter. Stipends will be paid at \$40 per hour PLC Meeting time: 2 hours x 4 quarters = 8 hours PLC Meeting Stipends: 8 hrs. x 18 instructional personnel x \$40/hr. = \$5,760			
	6400	301	0551 - Plantation Middle School	UniSIG		\$9,024.00
			Notes: Substitute Days Sixteen substitute days will be used to provide coverage for core content teachers (Math, Science, ELA and Social Studies) to engage in Lesson Study professional growth development. This model is comprised of a target topic of focus based on progress monitoring (FAST PM, quarterly CFA, and daily formatives), PLC and collaborative planning conversations, classroom walkthrough observations as well as coach and teacher identified areas of need as aligned to the SIP goals. Teachers will engage in direct professional development on the first day in the process to build knowledge on the topic and related strategies to improve practice in this area. Teachers			

			will then observe the expert working with students in a classroom setting implementing the strategies according to expectations. The team will then engage in expert teacher lesson implementation using a rubric for objectivity. Teachers will then plan a lesson including the area of focus. They will implement this on day 2 with peers and coaches observing followed by feedback using the rubric with suggestions for adjustments for higher learner outcome yield. Coverage will be needed for teachers to participate in two rounds of this experiential learning for model (2 days-fall semester and 2 days-spring semester), for a total of sixteen days coverage for four departments. Maximum of four (4) substitutes are requested for each day. Total Substitute Request: 16 days x \$141/day x 4 substitutes= \$9,024			
	6400	130	0551 - Plantation Middle School	UniSIG		\$6,400.00
			Notes: Professional Development/Training - Facilitators - PD/Facilitator Stipends: 4 Facilitators x 40 hours x \$40/hr. stipend = \$6,400
