<http://myvolusiaschools.org/school/debary/pages/default.aspx>

School Board Approval

This plan was approved by the Volusia County School Board on 10/31/2023.

SIP Authority

Section 1001.42(18), Florida Statutes (F.S.), requires district school boards to annually approve and require implementation of a new, amended, or continuation SIP for each school in the district which has a school grade of D or F; has a significant gap in achievement on statewide, standardized assessments administered pursuant to s. 1008.22 by one or more student subgroups, as defined in the federal Elementary and Secondary Education Act (ESEA), 20 U.S.C. s. 6311(b)(2)(C)(v)(II); has not significantly increased the percentage of students passing statewide, standardized assessments; has not significantly increased the percentage of students demonstrating Learning Gains, as defined in s. 1008.34, and as calculated under s. 1008.34(3)(b), who passed statewide, standardized assessments; has been identified as requiring instructional supports under the Reading Achievement Initiative for Scholastic Excellence (RAISE) program established in s. 1008.365; or has significantly lower graduation rates for a subgroup when compared to the state's graduation rate. Rule 6A-1.098813, Florida Administrative Code (F.A.C.), requires district school boards to approve a SIP for each Department of Juvenile Justice (DJJ) school in the district rated as Unsatisfactory.

Below are the criteria for identification of traditional public and public charter schools pursuant to the Every Student Succeeds Act (ESSA) State plan:

Additional Target Support and Improvement (ATSI)

A school not identified for CSI or TSI, but has one or more subgroups with a Federal Index below 41%.

Targeted Support and Improvement (TSI)

A school not identified as CSI that has at least one consistently underperforming subgroup with a Federal Index below 32% for three consecutive years.

Comprehensive Support and Improvement (CSI)

A school can be identified as CSI in any of the following four ways:

1. Have an overall Federal Index below 41%;
2. Have a graduation rate at or below 67%;
3. Have a school grade of D or F; or
4. Have a Federal Index below 41% in the same subgroup(s) for 6 consecutive years.

ESEA sections 1111(d) requires that each school identified for ATSI, TSI or CSI develop a support and improvement plan created in partnership with stakeholders (including principals and other school leaders, teachers and parent), is informed by all indicators in the State's accountability system, includes evidence-based interventions, is based on a school-level needs assessment, and identifies resource inequities to be

addressed through implementation of the plan. The support and improvement plans for schools identified as TSI, ATSI and non-Title I CSI must be approved and monitored by the school district. The support and improvement plans for schools identified as Title I, CSI must be approved by the school district and Department. The Department must monitor and periodically review implementation of each CSI plan after approval.

The Department's SIP template in the Florida Continuous Improvement Management System (CIMS), <https://www.floridacims.org>, meets all state and rule requirements for traditional public schools and incorporates all ESSA components for a support and improvement plan required for traditional public and public charter schools identified as CSI, TSI and ATSI, and eligible schools applying for Unified School Improvement Grant (UniSIG) funds.

Districts may allow schools that do not fit the aforementioned conditions to develop a SIP using the template in CIMS.

The responses to the corresponding sections in the Department's SIP template may address the requirements for: 1) Title I schools operating a schoolwide program (SWD), pursuant to ESSA, as amended, Section 1114(b); and 2) charter schools that receive a school grade of D or F or three consecutive grades below C, pursuant to Rule 6A-1.099827, F.A.C. The chart below lists the applicable requirements.

SIP Sections	Title I Schoolwide Program	Charter Schools
I-A: School Mission/Vision		6A-1.099827(4)(a)(1)
I-B-C: School Leadership, Stakeholder Involvement & SIP Monitoring	ESSA 1114(b)(2-3)	
I-E: Early Warning System	ESSA 1114(b)(7)(A)(iii)(III)	6A-1.099827(4)(a)(2)
II-A-C: Data Review		6A-1.099827(4)(a)(2)
II-F: Progress Monitoring	ESSA 1114(b)(3)	
III-A: Data Analysis/Reflection	ESSA 1114(b)(6)	6A-1.099827(4)(a)(4)
III-B: Area(s) of Focus	ESSA 1114(b)(7)(A)(i-iii)	
III-C: Other SI Priorities		6A-1.099827(4)(a)(5-9)
VI: Title I Requirements	ESSA 1114(b)(2, 4-5), (7)(A)(iii)(I-V)-(B) ESSA 1116(b-g)	

Note: Charter schools that are also Title I must comply with the requirements in both columns.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Department encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

I. School Information

School Mission and Vision

Provide the school's mission statement.

Our school community will provide a solid foundation for academic and social growth, promoting diversity and inclusion while establishing life-long learners and positive contributors to society.

Provide the school's vision statement.

By working together as a team of parents, faculty, staff, community members, and students, we will ensure the continued success of our children.

School Leadership Team, Stakeholder Involvement and SIP Monitoring

School Leadership Team

For each member of the school leadership team, select the employee name and email address from the dropdown. Identify the position title and job duties/responsibilities as it relates to SIP implementation for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Sanford, David	Assistant Principal	Facilities, Discipline, safety and security
Gotlib, Stacy	Principal	
McFall-Conte, Michelle	Assistant Principal	SIP Development ESE Discipline Supervision
Nation, Shanda	Instructional Coach	Perform coaching cycles with teachers, facilitate weekly professional learning community meetings, walk throughs of classroom using look fors
Yonker, Michael	Dean	Discipline MTSS Chair Testing Coordinator
MARCUS, VALERIE	Teacher, K-12	
Howard, Pamela	Teacher, K-12	
McCoy, Becky	Teacher, K-12	

Stakeholder Involvement and SIP Development

Describe the process for involving stakeholders (including the school leadership team, teachers and school staff, parents, students (mandatory for secondary schools) and families, and business or community leaders) and how their input was used in the SIP development process. (ESSA 1114(b)(2))

Note: If a School Advisory Council is used to fulfill these requirements, it must include all required stakeholders.

The School Leadership Team met to look at the needs assessment, and all members participated in determining the school targets for the 23-24 school year. The School Improvement Plan was presented to the faculty as a whole for their input, and for discussion. The School Improvement Plan will also be presented at SAC, and will also be available at the front desk for parents and community members to review and give their input.

SIP Monitoring

Describe how the SIP will be regularly monitored for effective implementation and impact on increasing the achievement of students in meeting the State's academic standards, particularly for those students with the greatest achievement gap. Describe how the school will revise the plan, as necessary, to ensure continuous improvement. (ESSA 1114(b)(3))

The School Improvement Plan will be regularly monitored for effective implementation through School Leadership Team meetings, PLCs, and the Stocktake process. The SIP goal will be published and posted in areas where teachers frequent (classrooms, teacher's lounge, PLC room, mail room). DeBary Elementary will target those with the greatest achievement gap by targeting those students for intervention services whether it is through being a SWD or through receiving services from our intervention teacher. Students will also receive tier 2 reading instruction provided by the ELA teacher

Early Warning Systems

Using 2022-23 data, complete the table below with the number of students by current grade level that exhibit each early warning indicator listed:

Indicator	Grade Level										Total
	K	1	2	3	4	5	6	7	8		
Absent 10% or more days	0	22	18	28	12	16	0	0	0	96	
One or more suspensions	0	11	5	2	4	9	0	0	0	31	
Course failure in English Language Arts (ELA)	0	0	0	0	5	4	0	0	0	9	
Course failure in Math	0	0	0	0	0	1	0	0	0	1	
Level 1 on statewide ELA assessment	0	0	0	0	19	24	0	0	0	43	
Level 1 on statewide Math assessment	0	0	0	0	21	21	0	0	0	42	
Number of students with a substantial reading deficiency as defined by Rule 6A-6.0531, F.A.C.	0	4	12	21	48	20	0	0	0	105	

Using the table above, complete the table below with the number of students by current grade level that have two or more early warning indicators:

Indicator	Grade Level									Total
	K	1	2	3	4	5	6	7	8	
Students with two or more indicators	0	7	2	6	10	17	0	0	0	42

Using the table above, complete the table below with the number of students identified retained:

Indicator	Grade Level									Total
	K	1	2	3	4	5	6	7	8	
Retained Students: Current Year	1	1	0	0	0	1	0	0	0	3
Students retained two or more times	0	0	0	0	0	1	0	0	0	1

Prior Year (2022-23) As Initially Reported (pre-populated)

The number of students by grade level that exhibited each early warning indicator:

Indicator	Grade Level										Total
	K	1	2	3	4	5	6	7	8		
Absent 10% or more days	22	18	28	12	16	19	0	0	0	115	
One or more suspensions	11	5	2	4	9	8	0	0	0	39	
Course failure in ELA	0	0	0	4	5	3	0	0	0	12	
Course failure in Math	0	0	0	0	1	4	0	0	0	5	
Level 1 on statewide ELA assessment	0	0	0	19	24	17	0	0	0	60	
Level 1 on statewide Math assessment	0	0	0	21	21	17	0	0	0	59	
Number of students with a substantial reading deficiency as defined by Rule 6A-6.0531, F.A.C.	5	7	17	26	15	9	0	0	0	79	

The number of students by current grade level that had two or more early warning indicators:

Indicator	Grade Level									Total
	K	1	2	3	4	5	6	7	8	
Students with two or more indicators	7	2	6	10	17	12	0	0	0	54

The number of students identified retained:

Indicator	Grade Level									Total
	K	1	2	3	4	5	6	7	8	
Retained Students: Current Year	1	3	0	0	0	2	0	0	0	6
Students retained two or more times	0	0	0	0	1	0	0	0	0	1

Prior Year (2022-23) Updated (pre-populated)

Section 3 includes data tables that are pre-populated based off information submitted in prior year's SIP.

The number of students by grade level that exhibited each early warning indicator:

Indicator	Grade Level										Total
	K	1	2	3	4	5	6	7	8		
Absent 10% or more days	22	18	28	12	16	19	0	0	0	115	
One or more suspensions	11	5	2	4	9	8	0	0	0	39	
Course failure in ELA	0	0	0	4	5	3	0	0	0	12	
Course failure in Math	0	0	0	0	1	4	0	0	0	5	
Level 1 on statewide ELA assessment	0	0	0	19	24	17	0	0	0	60	
Level 1 on statewide Math assessment	0	0	0	21	21	17	0	0	0	59	
Number of students with a substantial reading deficiency as defined by Rule 6A-6.0531, F.A.C.	5	7	17	26	15	9	0	0	0	79	

The number of students by current grade level that had two or more early warning indicators:

Indicator	Grade Level									Total
	K	1	2	3	4	5	6	7	8	
Students with two or more indicators	7	2	6	10	17	12	0	0	0	54

The number of students identified retained:

Indicator	Grade Level									Total
	K	1	2	3	4	5	6	7	8	
Retained Students: Current Year	1	3	0	0	0	2	0	0	0	6
Students retained two or more times	0	0	0	0	1	0	0	0	0	1

II. Needs Assessment/Data Review**ESSA School, District and State Comparison (pre-populated)**

Please note that the district and state averages shown here represent the averages for similar school types (elementary, middle, high school or combination schools). Each "blank" cell indicates the school had less than 10 eligible students with data for a particular component and was not calculated for the school.

On April 9, 2021, FDOE Emergency Order No. 2021-EO-02 made 2020-21 school grades optional. They have been removed from this publication.

Accountability Component	2023			2022			2021		
	School	District	State	School	District	State	School	District	State
ELA Achievement*	59	52	53	64	53	56	66		
ELA Learning Gains				61			58		
ELA Lowest 25th Percentile				36			47		
Math Achievement*	68	55	59	69	42	50	63		
Math Learning Gains				72			67		
Math Lowest 25th Percentile				49			55		
Science Achievement*	78	62	54	74	55	59	70		
Social Studies Achievement*					59	64			
Middle School Acceleration					45	52			
Graduation Rate					58	50			
College and Career Acceleration						80			
ELP Progress	69	60	59	46			62		

* In cases where a school does not test 95% of students in a subject, the achievement component will be different in the Federal Percent of Points Index (FPPI) than in school grades calculation.

See [Florida School Grades, School Improvement Ratings and DJJ Accountability Ratings](#).

III. Planning for Improvement

Data Analysis/Reflection

Answer the following reflection prompts after examining any/all relevant school data sources.

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

According to PM 3 data, the component that showed the lowest performance was ELA, which had 59% scoring a level 3 or above.

Contributing factor: In EWS, third grade had 48 students with a substantial reading deficiency. One hundred twenty-eight kids in 3rd-5th have a substantial reading deficiency. Third grade accounts for 37.5% of students with a substantial reading deficiency. Historical data shows that this cohort of 22-23 sy third graders has not demonstrated proficiency compared to the other grade levels at DeBary. Walk through data shows deficits in higher level questioning and verification of learning.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

According to PM 3 data, our ELA data had the largest decrease going from 64% to 59% of students scoring proficiency.

Contributing factors: Coaching and intervention processes were not fully implemented. Academic coaches were part coach and part intervention teacher. One of the academic coaches had to be pulled in January into a 4th grade classroom. An intervention teacher that was hired did not complete the school year. That reading intervention teacher was not replaced. The remaining coach/intervention teacher focused on MTSS. Not a hundred percent of teachers are reading endorsed.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The data component that had the greatest gap compared to the state average was 3rd grade ELA with DeBary scoring 59% scoring a level 3 or above. The state had 50% of student scoring a level 3 or above. Even though DeBary was still above the state average, this was our lowest area.

Contributing factors: Coaching and intervention processes were not fully implemented. Academic coaches were part coach and part intervention teacher. One of the academic coaches had to be pulled in January into a 4th grade classroom. An intervention teacher that was hired did not complete the school year. That reading intervention teacher was not replaced. Walk throughs also showed the need for more training in high level questioning techniques and verification of learning.

Which data component showed the most improvement? What new actions did your school take in this area?

When looking at PM data throughout the school year. Math showed the most growth. After PM1 data, 9.3% scored at proficiency. After PM 3, 69% of students scored a 3 or above. This was an increase of 59.5% scoring proficiency.

Contributing factors: Walk through data shows that 5/5 classrooms were implementing collaborative structures, 5/5 classrooms were using academic vocabulary, 3/3 third grade classrooms were implementing benchmark aligned tasks.

Reflecting on the EWS data from Part I, identify one or two potential areas of concern.

Coaching and intervention processes were not fully implemented. Academic coaches were part coach and part intervention teacher. One of the academic coaches had to be pulled in January into a 4th grade classroom. An intervention teacher that was hired did not complete the school year. That reading intervention teacher was not replaced. The remaining coach/intervention teacher focused on MTSS. When looking at EWS, there is a need to strengthen DeBary's MTSS process and solving of problems with fidelity to ensure the causes are identified and targeted for intervention.

Rank your highest priorities (maximum of 5) for school improvement in the upcoming school year.

1. Achievement of students with disabilities
2. clarity of practices (collaborative planning and PLCs, walk throughs, coaching and intervention processes, MTSS)
3. implementation of higher level questioning strategies and verification of learning (using look fors)

A trend that has been targeted is the need for ongoing progress monitoring of these systems to ensure there is evidence of implementation and impact with fidelity.

Area of Focus

(Identified key Area of Focus that addresses the school's highest priority based on any/all relevant data sources)

#1. Instructional Practice specifically relating to ELA**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed. One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

At DeBary Elementary, since the 2018-2019 school year, our ELA achievement has decreased from 66% to 59% achieving proficiency. For the 21-22 school year, 37% of student's with disabilities (ESSA subgroup) scored proficiency on the Florida Standards Assessment. Currently 14.8% of students with disabilities (ESSA subgroup) scored proficiency on FAST progress monitoring 3 assessment in ELA. There is a need to restructure responsibilities of non rostered teachers (TOA, coaches, intervention). DeBary Elementary has a need to develop clarity of practices with fidelity through the implementation of look fors, collaborative planning , PLCs, walk throughs, MTSS.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

Student Practice:

*After administration of FAST Progressing Monitoring 1 and Progress Monitoring 2, all students will show growth consistent with district and state growth trends.

*By February 2024, 65% of students will show proficiency on benchmark aligned common assessments (VBAs, chapter assessments, etc.)

Teacher Practice:

*By May 2024, 90% of classroom teachers will provide students with Benchmark aligned tasks as evidenced through walkthroughs with targeted walk throughs.

Coaching Practice:

*By May 2024, the number of teachers receiving Tier 2-3 support will decrease by 80%.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Student Practice:

*Student data will be disaggregated after FAST progress monitoring 1 and 2 and compared with state and district growth trends.

*65% of students scoring proficiency in ELA will be the goal for the 23-24 school year. After each benchmark aligned assessment, teachers, coaches, and administrators will track and chart the data in order to measure progress over the school year.

Teacher Practice:

*Classroom walkthrough data will be collected and analyzed weekly.

*Administration and coaches will attend PLCs to monitor for benchmark aligned planning of tasks.

Coaching Practice:

*School Leadership team will review results of collaborative planning sessions

*School coaches will provide administrators with look fors every Friday.

*Administrative team will develop a walk through schedule to walk through classrooms, targeting the four look fors, and compile quantitative data

*Leadership team will participate in the Stocktake process

*ESE Administrator will develop systems to monitor SWD data

*ESE administrator will, every two weeks, monitor SWD IEP data through data tracking sheets, support facilitation logs, and lesson gain charts, , and every 9 weeks monitor completion of progress reports.

Feedback will be given to the teachers on the data and paperwork.

Person responsible for monitoring outcome:

Michelle McFall-Conte (mamcfal1@volusia.k12.fl.us)

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

Providing professional development: Administrative team and coaches will provide training in Student's with Disabilities, MTSS, verification of learning, improving higher level questioning, These professional developments will deepen alignment to benchmarks, and build capacity among faculty.

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

Educational research has shown that building teacher capacity is an important factor that influences student outcomes, and student achievement.

Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)

Tier 1 - Strong Evidence

Will this evidence-based intervention be funded with UniSIG?

No

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Administrative team will create, and calibrate a walk through calendar that targets the four look fors. Feedback will be shared with teachers. Walk through data will be shared at Faculty meetings, Grade Chair meetings, and School Leadership Team meetings.

Person Responsible: Stacy Gotlib (sjgotlib@volusia.k12.fl.us)

By When: August 30th, 2023

Regular data monitoring of Students with Disabilities to determine if progress on grade level and IEP goals is taking place. This will take place through a data spreadsheet of SWD, along with monitoring of support facilitation logs, and monitoring of IEP goal data collection.

Person Responsible: Michelle McFall-Conte (mamcfal1@volusia.k12.fl.us)

By When: After district assessments in Performance Matters,

Faculty meetings, and PLCs will be used for collaborative planning.

Person Responsible: Shanda Nation (smnation@volusia.k12.fl.us)

By When: weekly PLCs

#2. Positive Culture and Environment specifically relating to Other**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed.

One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

At DeBary Elementary, for the 22-23 school year, we had 360 discipline referrals. This was an increase of 11 referrals. During the 21-22 school year, DeBary Elementary had 52 incidents of hitting and striking. For the 22-23 school year, DeBary increased to 134 incidents of hitting and striking. This was an increase of 38%. For the 21-22 school year, there were 33 incidents of school rule violation. For the 22-23 school year, this increased to 73. This was an increase of 45%. When looking at students with disabilities, this subgroup accounted for 129 of the 360 discipline referrals. This accounts for 35% of the discipline referrals. When looking by students, 124 students received discipline referrals, 28 of those students were students with disabilities, which accounted for 22% of the students.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

In the 2023-2024 school year, DeBary Elementary will decrease amounts of hitting and striking and school rules violation by 30% (94 for hitting and striking and 51 for school rules violation). Referrals for students with disabilities, at DeBary Elementary will decrease by 25%(97 referrals and 21 students) for the 23-24 school year.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Discipline data will be monitored through the PBIS team. Office discipline referrals and consequences will be monitored once a month and shared at faculty meetings, and PBIS team meetings. Discipline data for students with disabilities will be monitored twice a month, and shared at faculty meetings and PBIS team meetings.

Person responsible for monitoring outcome:

David Sanford (dwsanfor@volusia.k12.fl.us)

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

The evidence based strategy that DeBary will be using will be a multi disciplinary approach through the framework of MTSS (Multi tiered system fo supports), and PBIS (Positive behavior intervention supports). Results will be shared and monitored through the PBIS team and faculty meetings.

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

Research has shown that the implementation of PBIS (positive behavior intervention supports) will decrease the amount of discipline due to the implementation of the positive supports.

Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)

Tier 1 - Strong Evidence

Will this evidence-based intervention be funded with UniSIG?

No

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Monthly PBIS leadership team meetings will take place to monitor student discipline, and implementation of PBIS expectations.

Person Responsible: David Sanford (dwsanfor@volusia.k12.fl.us)

By When: Monthly through May 2024

Discipline of Students with Disabilities will be monitored monthly and shared with PBIS team.

Person Responsible: Michelle McFall-Conte (mamcfal1@volusia.k12.fl.us)

By When: Monthly through May 2024

PBIS presentation during preplanning week. Expectations will be reviewed, along with changes to Debary's PBIS plan.

Person Responsible: VALERIE MARCUS (vmmarcus@volusia.k12.fl.us)

By When: August 2023

ERPL in January of 2024 will be a refresh of PBIS for the mid year.

Person Responsible: David Sanford (dwsanfor@volusia.k12.fl.us)

By When: January 2024

Walk throughs will be conducted to provide feedback on classroom implementations of PBIS expectations.

Person Responsible: David Sanford (dwsanfor@volusia.k12.fl.us)

By When: Throughout school year, ending in May 2024.

CSI, TSI and ATSI Resource Review

Describe the process to review school improvement funding allocations and ensure resources are allocated based on needs. This section must be completed if the school is identified as ATSI, TSI or CSI in addition to completing an Area(s) of Focus identifying interventions and activities within the SIP (ESSA 1111(d)(1)(B)(4) and (d)(2)(C).

School Improvement funding allocations are awarded from the School Advisory Council. Resources are allocated based on inclusion with School Improvement Plan. For the 23-24 school year, a focus on School Improvement funds will be focused on ELA, SWD, and a positive culture improvement. Systems have been put in place to better monitor SWD. The ESE team, as a whole will be meeting once a month in a PLC. ESE AP will monitor ,e very two week, lesson gain charts, support facilitation logs, and ese data collection. Feedback will be given to the teachers.ESE Progress reports will be monitored to ensure data is being used when writing the reports. Each grade level will give to administration their plan for documenting accomodations for students with disabilities, and this will be monitored on a regular basis.
