SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or with a grade of F within the prior two years. For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify resources available to support the goals and barriers that could hinder achieving those goals (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system is a statewide network of strategic support, differentiated by need according to performance data, and provided to schools and districts in order to improve leadership capacity, teacher efficacy and student outcomes. DA field teams collaborate with district and school leadership to design, implement and refine improvement plans, as well as provide instructional coaching, as needed.

DA Regions

Florida's DA network is divided into five geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

Traditional public schools are classified at the start of each school year, based upon the most recently released school grades (A-F), into one of the following categories:

- Not in DA – currently A or B with no F in prior three years; charter schools; ungraded schools
- Monitoring Only – currently A or B with at least one F in the prior three years
- Prevent – currently C
- Focus – currently D
 - Planning – two consecutive grades of D (i.e., DD), or a grade of F immediately followed by a grade of D in the most recent grades release (i.e., FD)
 - Implementing – two consecutive grades of D in the most recent grades release preceded by a grade below C (i.e., FDD or DDD)
- Priority – currently F
 - Planning – declined to a grade of F in the most recent grades release and have not received a planning year or implemented a turnaround option during the previous school year
 - Implementing – two consecutive grades of F (i.e., FF), or three consecutive grades below C with an F in the most recent grades release (i.e., FDF or DDF)

DA Turnaround and Monitoring Statuses

Additionally, schools in DA are subject to one or more of the following Turnaround and Monitoring Statuses:

- Former F – currently A-D with at least one F in the prior three years; SIP is monitored by FDOE
- Planning – Focus Planning and Priority Planning; district is planning for possible turnaround
- Implementing – Focus Implementing and Priority Implementing; district is implementing the Turnaround Option Plan (TOP)

Supportive Environment

School Mission and Vision

Provide the school's mission statement

At Lincoln Avenue Academy, we believe that all students can and will learn. To ensure that all students reach their full potential, meet rigorous academic and magnet standards, and grow to be productive citizens, we will:

- maintain high expectations and encourage academic excellence for all students.
- foster a positive school climate which respects and values diversity.
- consistently improve our teaching practices through meaningful professional development.
- implement rigorous, innovative curriculum to challenge every student.
- enhance technology and global collaboration to prepare our students for the future.

Provide the school's vision statement

As an innovative, STEM focused school, we strive to prepare today's learner the world of tomorrow by offering each student the opportunity to excel through relevant, rigorous curriculum built around the engineering design process. Our curriculum emphasizes higher level thinking skills, real world science and mathematics application, and up-to-date technology. Through innovative, research based instructional approaches we foster love of learning, curiosity, self esteem.

School Environment

Describe the process by which the school learns about students' cultures and builds relationships between teachers and students

Our teachers cultivate interactions with their students to connect with each child on a meaningful level. They employ a variety of strategies and assessments to accomplish this objective. For example, they administer running records to understand their students as readers, performance tasks to gain insight into the best way each student learns, and parent/student surveys to identify the parent's perceived strengths of each child. Teachers learn about students by observing them at work and play. This type of observation helps teachers determine the areas in which their students are successful and those in which they are less adept. Teachers gather information about student interests, abilities, learning preferences, and motivations. They may do so by using written inventories, interactive devices, or other forms of communication, including personal conversations with students and their families. Three times each year, teachers engage in a face-to-face portfolio conference with each student's families. During this time, teachers share the student's individual strengths and weaknesses of each student, while at the same time, gather additional information from the families about each child.

Describe how the school creates an environment where students feel safe and respected before, during and after school

Before school, our teachers have voluntarily implemented a program to assist any of our school's struggling students. This program works to not only fulfill any academic concerns but social and emotional as well. The teachers working this program focus on developing deep relationships with the participants and their families. Each child's basic needs are met. Teachers make sure that a signature is provided in the agenda, forms and supplies are brought in, sponsorship for fieldtrips are made, and any other basic need the student may have in met. As a desegregation school, magnet schools promote equity and diversity. Our uniforms put all students on equal grounds, allowing them to focus solely on academics. Our goal is to contribute to betterment of our society and community by focusing

on building lifelong friendships, respect and appreciation of diversity. Having uniforms supports that goal but taking away distractions that different clothing brands and styles may bring to our campus. This allows students to focus on academics, minimizes behavior problems and fosters our community of learners. After school needs are met with constant communication between school, home and often times; after school day cares. Teachers communication with the after school programs has served to benefit students that arrive at home too late for parents to help with academic and behavioral needs.

Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced

Lincoln Avenue Academy has always had a high level of expectations for both academics and behavior. As a desegregation school, magnet schools promote equity and diversity. Our uniforms put all students on equal grounds, allowing them to focus solely on academics. Our goal is to contribute to betterment of our society and community by focusing on building lifelong friendships, respect and appreciation of diversity. Having uniforms supports that goal but taking away distractions that different clothing brands and styles may bring to our campus. Additionally, our school participates in the PBS program. Each grade level works each school year to align their expectations and rewards for students. Spontaneous awards for positive behavior helps to keep the students focused on their expectations. Additionally a school-wide policy for parent communication documented in the child's agenda has helped to keep parents informed of each child's behavioral strengths and needs. School-wide rules are posted throughout the campus as an additional reminder of Lincoln's behavioral expectations. All of these strategies allow students to focus on academics, minimizes behavior problems and fosters our community of learners.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services

- Given that one of the main tasks of the Leadership Team/PSLT is to monitor student data related to instruction and interventions, the Leadership Team/PLST monitors the effectiveness of instruction and intervention by reviewing student data as well as data related to implementation fidelity (teacher walk-through data).
- The Leadership Team/PSLT communicates with and supports the PLCs in implementing the proposed strategies by distributing Leadership Team members across the PLCs to facilitate planning and implementation. Once strategies are put in place, the Leadership Team members who are part of the PLCs regularly report on their efforts and student outcomes to the larger Leadership Team/PSLT.
- The Leadership Team/PSLT and PLCs both use the problem solving process (Problem Identification, Problem Analysis, Intervention Design and Implementation and Evaluation to:
 - o Use the problem-solving model when analyzing data:
 1. What is the problem? (Problem Identification)
 2. Why is it occurring? (Problem Analysis and Barrier Identification)
 3. What are we going to do about it? (Action Plan Design and Implementation)
 4. Is it working? (Monitor Progress and Evaluate Action Plan Effectiveness)
 - o Identify the problem (based on an analysis of the data disaggregated via data sorts) in multiple areas –
curriculum content, behavior, and attendance
 - o Develop and test hypotheses about why student/school problems are occurring (changeable barriers).
 - o Develop and target interventions based on confirmed hypotheses. Interventions may include academic interventions as well as counseling, mentoring, and other pupil services.
 - o Identify appropriate progress monitoring assessments/data collection tools to be administered at

- regular intervals matched to the intensity of the level of instructional/behavioral/intervention support provided.
- o Develop grading period or units of instruction//intervention goals that are ambitious, time-bound, and measureable (e.g., SMART goals).
 - o Review progress monitoring data at regular intervals to determine when student(s) need more or less support (e.g., frequency, duration, intensity) to meet established class, grade, behavior, and/or school goals (e.g., use of data-based decision-making to fade, maintain, modify or intensify intervention and/or enrichment support).
 - o Each PLC develops PLC action plan for SIP strategy implementation and monitoring.
 - o Assess the implementation of the strategies on the SIP using the following questions:
 1. Does the data show implementation of strategies are resulting in positive student growth?
 2. To what extent are we making progress toward the school's SIP goals?
 3. If we are making progress, what can we do to sustain what is working?
 4. What barriers to implementation are we facing and how will we address them?
 5. What should we do next? What should be our plan of action?

Early Warning Systems

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(B)(ii)(III), (b)(1)(B)(iii)(I), and (b)(1)(I).

Describe the school's early warning system and provide a list of the early warning indicators used in the system

Early warning system indicators reported two times per month including the following:

- Chronic absenteeism rate 10% or higher by school and grade
- ISS and OSS discipline referrals by school and grade
- Progress monitoring 3 times per year
- Monitoring of acquired credits each semester
- Count of over - age students at middle and elementary grade levels (last week of October)

Provide the following data related to the school's early warning system

The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level						Total
	K	1	2	3	4	5	
Attendance below 90 percent	3	6	2	3	5	7	26
One or more suspensions	0	0	0	0	0	0	
Course failure in ELA or Math	0	0	0	0	0	0	
Level 1 on statewide assessment	0	0	0	1	0	0	1

The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator	Grade Level		Total
	K		
Students exhibiting two or more indicators	0		0

Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system

ADDITIONAL TIER 1 INTERVENTIONS

In addition to differentiation of instruction, data driven instruction and immediate targeted interventions, Lincoln provides more intensive interventions to maintain students on Tier1

- o DEEP (Differentiated Educational Enrichment Plan) Interventions – before and after school individual

- o small group intervention by magnet school attractor unit teachers, SAI (Supplemental Academic Instructional Staff) and MSAP (Magnet Schools Assistance Program) staff; available daily – these teachers also provide mentoring and follow up for students

- o Homework and study assistance in the “math lab” before school or during media center time

- o Regular small group and individual tutoring sessions during 15 minutes of Physical Education, media

- o classes or computer lab time

- o Support team providing targeted small group interventions

- o “wrap around services”- support staff works with parents to identify services such as health care; after

- o school scholarships and programs; transportation for parent to participate in school activities; assistance with basic needs, free supplies and uniforms etc., in order to assure all students felt safe and valued

MOST (Multiple Opportunities for Student Targets)

This program (previously called PACT – Parent, Administration, Child, Teacher) is an intermediate intervention between Tier 1 and Tier 2. Students involved in the MOST program have been referred due to persistent behavior or academic struggle. The purpose of the program is to provide ongoing communication with parents, provide student with more intensive interventions and help student continue adequate progress. A set time is established for families to meet with teacher, support staff and administrator to come up with an individual plan for improvement. Meetings are monthly, last 30 minutes and set at the same time each month. This allows us to assist families with transportation and requests to employers (if requested). The Most forms are embedded for your information. In most cases, this program avoids placement to Tier 2 and allows parents access to more personalized path to mastering standards.

SUMMER LEARNING

All students are provided with summer learning options as a courtesy to parents. These include an online book club monitored by teachers, teacher monitored Khan Academy and Lymboo math and an end of the summer project.

For students who are struggling academically, specific summer learning paths are created, all materials provided and intermediate meeting times set up as a part of our DEEP (Differentiated Educational Enrichment Program) summer plan. Teacher frequently communicates with parent to assist the child.

Assistance for students entering Lincoln after Kindergarten

Majority of students entering Lincoln after the Kindergarten year lag in academic skills, especially in areas of writing, science and math; the gap widens proportional to grade and we see an even wider achievement gap in students entering grades 3-5. In the last few years, over 75 percent of entering students were categorized as bottom 25% in some area, many entering with performance less than 3. To assure these students adapt to Lincoln, we provide targeted interventions in class, scaffolding of instruction, tutoring of priority standards with immediate interventions. We also assist students with adaptations to high expectations, high cognitive complexity of tasks and collaborative work environment through peer assistance and teacher facilitation.

Entering K at Lincoln Academy

Our Tier 1 interventions begin prior to the first day of Kindergarten

- Kindergarten Discovery Day (KDD is Lincoln’s Kindergarten round up) is usually held in May
- At this time, Kindergarten teachers administer a 10 minute assessment to students in attendance that

focus on oral comprehension, basic K readiness skills and ability to pattern; teacher also notes any speech or behavior issues that may not be developmentally on target

- At KDD, parents are provided with readiness activities (in reading and/or math) they can do with their

students; students who need extra support are provided DEEP packets (Differentiated Educational Enrichment Program) for summer- while not mandated, these provide ample materials for diverse parents to help with kindergarten readiness. A teacher follows up with families several times during summer to talk about progress and needs.

- Preliminary data is used to create heterogeneous classes and begin discussion of differentiation in building lesson plans and classroom activities

FOCUS ON DIVERSITY

Currently just about 50% of our students identify themselves as minority. As an original desegregation school, diversity plays an important role and is embedded in our curriculum with meaningful activities that help students feel valued, important and motivated. For example, as a part of our 4th grade unit "Forget Me Not" students plan and implement Martin Luther King work-a-thon that draws hundreds of volunteers. Inclusion of significant authors and scientists from diverse backgrounds helps create an environment of collaboration and maintains focus on high achievement.

ACCOMMODATIONS FOR DIVERSE STUDENT GROUPS

- o All IEP, 504, and ESOL accommodations are applied with fidelity
- o Teachers receive training and support for accommodating students in the class
- o Fidelity of implementation is continuously monitored by the support team
- o Students are taught how to monitor and request own accommodations starting in grade 3

TIER 2 / TIER 3 INTERVENTIONS

Students who are still not successful after all of the Tier 1 interventions are placed in Tier 2 and Tier 3 interventions, following the district's MTSS (Multi-Tiered System of Supports) protocol. The problem solving team meets weekly to discuss progress and assists teachers in selecting, providing and monitoring interventions. These interventions include intensive targeted interventions during iii time. Lincoln refers a minimal number of students for the ESE services, a testimony of MTSS working to help students achieve.

Family and Community Involvement

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(B)(iii)(I)(aa).

Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress

Title I schools use the Parent Involvement Plan (PIP) to meet the requirements of 20 U.S.C. § 6314(b)(1)(F).

Will the school use its PIP to satisfy this question?

No

PIP Link

The school completes a Parental Involvement Plan (PIP), which is available at the school site.

Description

- Orientation: Our school begins the year by welcoming our Lincoln families with a summer post card inviting the students to their new classrooms on the date of Polk County's Orientation. Lincoln's Orientation is an opportunity for parents to meet their teacher and begin a personal relationship with the teacher.
- Parent Information Night: Within the first two weeks of school, our families are invited back to Lincoln for an evening information event. During this meeting, parents are informed of their child's grade levels procedures and expectations for the year, our school's mission and vision, as well as all dates for the year in which the families can be involved.

- Parent Education Night: Within the first four weeks of school, our teachers host a Parent Education Night. This intention of this night is to inform our families of our school's mission and vision, current educational shifts, mandates, and best practices that affect our students.
- Portfolios: Three times each year, teachers engage in a face-to-face portfolio conference with each student's families. During this time, teachers share the student's individual strengths and weaknesses of each student, while at the same time, gather additional information from the families about each child.
- Educational Culminating Events: Each grade level hosts various events throughout the year that encourage parental and family involvement by inviting them into the school. An example of these events include: Grandparent's Day, Swamp Stomp, Special's Showcase, classroom celebrations, awards ceremony, chess team, music performances, fieldtrips, PTO meetings, SAC meetings, FCAT celebrations, Earth Day tree plantings, 100th Day Celebrations, Donuts for Dads, Muffins for Moms, Jump rope for Heart, Chinese New Year, Arctic Day, and many others.

Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement

The school's efforts to build and sustain partnerships involve collaboration with School Advisory community members, and MSAP grant funded personnel (IB coordinator and Teacher Resource Trainer Specialists), as well as efforts of various grade levels. Our SAC committee meets monthly and is a main vehicle in forming new partnerships with businesses and community. In addition, school personnel organizes community events such as the annual Martin Luther King workathon each MLK day. We also implement an Enhancement Hour, 12 week program for grade 5 that features various speakers from the community. Finally, as a part of magnet program requirements, the grant funded personnel recruits and works with businesses and community partners to assure their active contribution to our program.

Effective Leadership

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(H).

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team.:

Name	Title
Bennett, Inetta	Assistant Principal
Hollen, Evelyn	Other
Beck, Jessie	Other
Hurtado, DesmaLee	Teacher, K-12
Joyner, Samantha	Other
Kieffer, Fi	Teacher, PreK
Lockard, Mijana	Other
Wallace, Holly	Teacher, K-12

Duties

Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making

The roles and responsibilities of Lincoln's principal are defined by the Florida Principal Leadership Standards. They include but are not limited to: Obtaining high student learning results, establishing

student learning as a priority, implementing an instructional framework, establishing a learning environment that is conducive to the learning of all students, employ and monitor a decision-making process that is based on vision, mission and improvement priorities using facts and data, developing other leaders within Lincoln, retaining and developing an effective and diverse faculty and staff, and maintaining a safe and orderly facility.

Mrs. Hollen practices shared decision making that is based on vision, mission and improvement priorities using facts and data. She gives priority attention to decisions that impact the quality of student learning and teacher proficiency; while she uses critical thinking and problem solving techniques to define problems and identify solutions. Frequently she reflects and evaluates decisions for effectiveness, equity, intended and actual outcome; implements follow-up actions; and revises those decisions as needed. Through the school based Leadership team, she empowers others and distributes leadership when appropriate

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact

At the end and beginning of each year, schools take an inventory of resources, including materials, staff and allocation of funds for their building to determine the necessary resource materials and personnel available to meet the needs of their students. The leadership team/PSLT develops a resource map to identify gaps in resources and to ensure resources are available and allocated across the building for use by all grade levels and teachers.

To ensure teacher support systems and small group and individual needs are met, the Problem Solving Leadership Team (PSLT):

1. Reviews school-wide assessment data on an ongoing basis in order to identify instructional needs across the school and all grade levels.
2. Supports the implementation of high quality instructional practices during core and intervention blocks.
3. Reviews progress monitoring data at the core to ensure fidelity of instruction and attainment of SIP goal(s) in curricular, behavioral, and attendance domains.
4. Communicates school-wide data to PLCs and facilitate problem solving within the content/grade level teams.

The PSLT meets regularly (e.g., bi-weekly/monthly) The PSLT meeting calendar is structured around the district's assessment calendar to ensure there are opportunities to review assessment outcome data and engage in the problem solving process for appropriate data-driven decisions. The members on the team include administrator(s), guidance counselor(s), school psychologist, ESE specialist, content area coaches/specialists, PLC liaisons, and other school personnel as needed.

To build capacity multi-tiered system of instructional delivery (Tier 1/Core, Tier 2/Supplemental and Tier 3/Intensive), the PSLT:

- Supports school teams with creating, managing and updating the school's resource maps for academic and non-academic areas.
- Ensures the master schedule incorporates allocated time for intervention support at all grade levels and assist teacher teams in identifying evidence-based strategies and materials for intervention delivery.
- Coordinates data sorts at the beginning of each year to identify students in need of enrichment, remediation and intervention support at each tier.
- Facilitates the implementation of specific programs that provide support to students in need of remediation of core skills.
- Determines the school-wide professional development needs of faculty and staff and arranges trainings aligned with the SIP goals.
- Organizes and supports systematic data collection (e.g., universal screenings, formative, ongoing

progress monitoring and summative data).

- Strengthen Tier 1 core instruction by:
 - o Implementing evidence-based instructional strategies and/or interventions. (as outlined in the SIP)
 - o Supporting PLCs with planning and delivering rigorous core instruction.
 - o Ensuring opportunities for common assessments are provided across each grade level.
 - o Reviewing common assessment data to monitor students Response to Core Instruction.
 - o Monitoring the fidelity of instructional practices.

Federal, state, and local funds, services, and programs will be coordinated and integrated in the school, including Title II

The district receives funds for staff development to increase student achievement through teacher training.

Title III

Services are provided through the district for educational materials and ELL district supported services to improve the education of immigrant and English Language Learners

Duties

Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes

Evaluation of last year's school improvement plan

In partnership with the School Leadership Team, the SAC will analyze and assess all pertinent school data that affects student achievement, and evaluate progress towards meeting the prior year's school improvement goal(s). That analysis will then guide the development of this year's SIP.

Development of this school improvement plan

In partnership with the School Leadership Team, the SAC will analyze and assess all pertinent school data that affects student achievement, develop the school improvement plan, vote on the school improvement plan, monitor the school improvement plan, review the school improvement plan as needed, plan and carry out activities that support the school improvement plan, develop a SAC budget to support the school improvement plan goals, monitor the spending of the SAC budget, and make adjustments to the budget as needed.

SAC Members:

Evaluate the School Improvement Plan

Determine School Improvement Priorities

Publicize the School Improvement Plan

Support ongoing School Improvement updates

Assist in the decision-making process and approval of expenditures of School Lottery Funds as well as

review the School Budget.

Preparation of the school's annual budget and plan

The SAC provides input in order to carry out the school improvement process at Lincoln. Each year the SAC approves budgets developed for School Recognition Funds, Lottery funds, and the Operating budget as well as any additional budgets that will aid in carrying out the school improvement process at Lincoln.

Describe the use of school improvement funds allocated last year, including the amount budgeted for each project

SAC submits a budget within the SIP to support strategy implementation and/or professional development.

The law encourages each local SAC to design their own budget (without infringement at the district level) in order to carry out the school improvement process in their school. Subject to the following restrictions, the law does not set any limitations on how the money can be spent. The principal may not override the recommendation of the SAC. Funds may not be used for capital improvement. Funds may not be used for any project or program that has duration of more than one year. However, a program or project formerly funded may receive funds in a subsequent year. The SAC is responsible for determining how funds will be appropriated. The SAC must vote on each item in the budget.

Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC

Yes

If the school is not in compliance, describe the measures being implemented to meet SAC requirements

Literacy Leadership Team (LLT)

Membership

Identify the name, email address and position title for each member of the school-based LLT.:

Name	Title
Bennett, Inetta	Assistant Principal
Beck, Jessie	Other
Hurtado, DesmaLee	Teacher, K-12
Joyner, Samantha	Other
Kieffer, Fi	Teacher, K-12
Lockard, Mijana	Other
Wallace, Holly	Teacher, K-12

Duties

Describe how the LLT promotes literacy within the school

The Florida State Standards set expectations in all ELA and content literacy classrooms to provide students with instruction and practice in the use of close reading strategies to ensure deeper comprehension of what is being read. District provided CISM (Comprehension Instructional Sequence Module) training provides teachers with a highly research-based instructional framework and toolkit of strategies for the use in planning and implementing close reading lessons. CISM is grounded in providing scaffolds for students to independently use while reading and responding to their reading of complex text.

Each grade level is responsible for reviewing their students' literacy data and creating lessons that are responsive to identified student needs. Resource teachers are responsible for acting on the literacy data by providing additional instruction/support where needed. Common assessments are used to identify effective reading strategies and guide instruction for re-teach or enrichment.

Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(D).

Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction

1. Recruitment, attendance of local job fairs and communication with the district Human Resource Department regarding the recruitment of highly qualified minority teachers (Person Responsible: Evelyn Hollen)
2. Development of structured, targeted interview process and an interviewing team to hire teachers whose vision and philosophy is compatible to that of Lincoln. (Person Responsible: Evelyn Hollen)
3. Ongoing instructional support for teachers including mentoring, feedback and professional development to retain teachers (People Responsible: Leadership team - Evelyn Hollen, Inetta Bennett, Holly Wallace, Fi Kieffer, Samantha Joyner, Jessica Beck, and Desmalee Hurtado)
4. Monthly meetings "Let's Chat" with new teachers and teachers with experience that are new to Lincoln to gain understanding in curriculum and Lincoln culture and procedures (People Responsible: Leadership team - Evelyn Hollen, Inetta Bennett, Holly Wallace, Fi Kieffer, Samantha Joyner, Jessica Beck, and Desmalee Hurtado)

Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school

- Our school has several support systems in place to help mentor not only first-year teachers; but also teachers new to Lincoln Avenue Academy.
 - o Mentoring Teachers through Professional Educators Competencies – teachers new to our profession with a temporary teaching certificate are assigned a mentor at the school-site through the district. The mentor/mentee partnership is determined by the principal and is based on the strengths and needs of

the individuals involved. This mentor helps the teachers become experts in each of the evaluated competencies. Additionally, these mentors conduct school tours, conference with the teachers at least once a month, and help to develop lessons for the new teacher's formal evaluations.

- o Grade Chairs – every grade level and resource area is assigned a grade chair position. This position is filled by a teacher that has experience not only as an educator, but also as a seasoned teacher at Lincoln. All new teachers to our school are naturally aligned to a grade chair. These grade chairs touch base several times a day with new teachers to mentor lesson planning, daily organization, upcoming events and basic pedagogical practices.

- o “Let’s Chat” – any new teacher to our school participates in meetings held 1-2 times a month to familiarize them to Lincoln’s climate, culture, procedures and expectations. The person responsible for the Let’s Chat meetings is an experienced, “highly-effective” teacher; thus ensuring accurate information is communicated. The agenda for these meetings are constructed to ensure that upcoming events are thoroughly explained, while past events are reflected on to ensure improvements for the following year.

- o Resource Teachers – our school has subject specific resource teachers to support all teachers in math, language arts, technology, the IB philosophy, and general pedagogical practices. The resource teachers are appointed by the principal, and have proven to be “highly effective” in all evaluated teacher competencies. Resource teachers are available to plan, coach and team-teach throughout the day.

Ambitious Instruction and Learning

Instructional Programs and Strategies

Instructional Programs

Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards

Our school begins the alignment process by first "unwrapping" the Florida standards to identify the critical concepts and skills students need to know and be able to do; as well as the cognitive complexity level at which the standard is being taught. We next develop our instructional programs by designing conceptual units of study with performance tasks, accompanying rubrics, scoring guides, and common formative assessments that are aligned to the concepts, skills and cognitive complexity presented by the standards. Finally our staff collaboratively scores student work; this collaborative scoring promotes fair and accurate determination.

Instructional Strategies

Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments

At Lincoln, MTSS is the practice of providing high-quality instruction and intervention matched to student needs using learning rate over time and level of performance to make important instructional decisions. Our MTSS model involves the systematic use of assessment data to most efficiently allocate resources in order to improve learning for all students. To ensure efficient use of resources, our school begins with the identification of trends and patterns using school-wide and grade-level data. Students who need instructional interventions beyond what is provided universally for positive behavior or academic content areas are provided with targeted, supplemental interventions delivered individually or in small groups at increasing levels of intensity. In an effort to engage in a systematic data-based problem solving process, the school's Leadership Team and PLCs use the problem solving process (Problem Identification, Problem Analysis, Intervention Design and Implementation and Evaluation to engage in data-driven decision making for core instruction. The process is outlined below:

- Analyze student outcomes and make data-driven decisions:
- Identify the problem (based on an analysis of the data disaggregated via data sorts) in multiple areas – curriculum content, behavior, and attendance
- Develop and test hypotheses about why student/school problems are occurring (identify root causes and barriers to success).
- Develop and target interventions based on confirmed hypotheses.
- Identify appropriate progress monitoring assessments to be administered at regular intervals matched to the intensity of the level of instructional/intervention support provided.
- Develop grading period or units of instruction/intervention goals that are ambitious, time-bound, and measurable (e.g., SMART goals).
- Review progress monitoring data at regular intervals to determine when student(s) need more or less support (e.g., frequency, duration, intensity) to meet established class, grade, and/or school goals (e.g., use of data-based decision-making to fade, maintain, modify or intensify intervention, remediation and/or enrichment support).

Our problem-solving process is critical to making the instructional adjustments needed for continual improvement in both student level of performance and rate of progress and is critical for assessing (through students' response) the effectiveness of the instruction/interventions provided. Throughout the continuum of instruction and intervention, our problem solving is used to match instructional resources to educational need. Teams continue to engage in problem solving to ensure that student success is achieved and maintained.

To ensure teacher support systems and small group and individual needs are met, the Problem Solving Leadership Team:

- Reviews school-wide assessment data on an ongoing basis in order to identify instructional needs across the school and all grade levels.
- Supports the implementation of high-quality instructional practices during core and intervention

blocks.

- Review progress-monitoring data at the core to ensure fidelity of instruction and attainment of SIP goal (s).
- Communicates school-wide data and facilitates problem solving within the content/grade level teams.
- Ensures the master schedule incorporates allocated time for intervention support at all grade levels and assist teacher teams in identifying evidence-based strategies and materials for intervention delivery.
- Organizes and supports systematic data collection (e.g., formative, ongoing progress monitoring and summative data).
- Strengthens Tier 1 core instruction by: implementing evidence-based instructional strategies and/or interventions, ensuring opportunities for common assessments are provided across each grade level reviewing common assessment data to monitor students Response to Core Instruction, and monitoring the fidelity of instructional practices.

Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Before School Program

Minutes added to school year: 2,700

Each morning a small group of intensive need students meet with our school's resource teachers to gain the support that is needed which is specifically geared to their needs. Students receive help in academic subjects from resource teachers that are experts in their fields. In addition, some students receive the support in the area of basic organization. Students that meet with the resource teachers have their daily materials signed, supplies replenished, emotional support provided while in this daily meeting. This has not only ensured the academic success of these struggling students, it has enabled them to spend their day focused on academics, rather than worrying about needed supplies and signatures.

Strategy Rationale

Several students are lacking some fundamental support systems (ranging from help completing homework to returning forms on time) that are generally provided outside school hours. This small group individualizes the services provided these students to meet their basic needs; ensuring that the students enter the classroom feeling prepared and safe.

Strategy Purpose(s)

- Core Academic Instruction

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data is collected and analyzed through our school's monthly PACT (Parent, Administrator, Child, and Teacher) meetings. During these meetings, parents are updated to their child's academic needs and the school-based representatives are updated regarding any additional needs the students may have.

Strategy: Summer Program

Minutes added to school year: 0

During the summer our teachers will engage in seven days of professional development, and collaborative planning that aligns to the goals stated in our school's MSAP (Magnet School's Assistance Program) grant.

Strategy Rationale

The professional development offered in these summer sessions are researched based practices that enhance teacher knowledge of pedagogical practices which will directly impact our student achievement.

Hollen, Evelyn, evelyn.hollen@polk-fl.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data is collected and analyzed to determine the effectiveness of this strategy through online surveys (at the completion of each session) and predetermined deliverables (as stated in the MSAP grant).

Student Transition and Readiness

PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(G).

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another

Parent Involvement events for Transitioning Children into Kindergarten include Kindergarten Discovery Day. This event provides parents with an opportunity to meet the teachers and hear about the academic program. Parents are encouraged to complete the school registration procedure at this time to ensure that the child is able to start school on time. In Polk County Public schools, all kindergarten children are assessed for Kindergarten Readiness using the FLKRS (Florida Kindergarten Readiness Screener). This state-selected assessment contains a subset of the Early Childhood Observation System and the first two measures of the Florida Assessments in Reading (FAIR). The instruments used in the screening are based upon the Florida Voluntary Prekindergarten (VPK) Education Standards. Additionally, all incoming Kindergarten students are screened during our Kindergarten Discovery Day by teachers for basic skills (including those on FLKERS and beginning of the year Kindergarten standards). Based on the outcomes of this assessment, students are provided an individualized academic support curriculum to help bridge any learning gaps that exists.

Throughout the summer, teachers meet with parents to review student performance. Data from the FAIR will be used to assist teachers in creating homogeneous groupings for small group reading instruction. Children entering Kindergarten may have benefited from the Polk County Public Schools' Voluntary Prekindergarten Program. This program is offered at elementary schools in the summer and during the school year in selected Head Start classrooms.

Students are programmed & scheduled appropriately through clear communication with feeder schools, utilizing district scheduling guidelines, At-Risk lists, and early warning systems based on a student's need for support. Additionally, field-trips are scheduled each year for our exiting 5th graders

to visit our feeder Middle School.

Students are encouraged to participate in Polk County's WE3 Expo, in which all elementary, middle and high school programs are showcased; highlighting Polk's wide variety of school options.

Targets Supported 1b

Indicator	Annual Target
FSA - English Language Arts - Proficiency Rate	100.0
FSA - Mathematics - Proficiency Rate	100.0
FCAT 2.0 Science Proficiency	100.0

Resources Available to Support the Goal 2

- Professional Development (CFA, Reader’s Workshop, Systemic Reforms)
- Running Records
- Common Planning
- CFA Training
- Grant/Funds (Magnet School Assistance Program Grant)
- Departmentalization
- Technology

Targeted Barriers to Achieving the Goal 3

- Retention of concepts presented in CFA trainings
- Lack of high-level vertically aligned reading curriculum with whole school buy-in
- MTSS/PACT process – consistency in practice
- New teachers in grade levels, presented with new curriculum to teach
- Protocol for Data Teams
- Incorporation of the International Baccalaureate Primary Years Programme as central curriculum

Plan to Monitor Progress Toward G1. 8

Our school-based Leadership Team will analyze the effectiveness of our SIP goal by desegregating our ongoing formative and summative assessment using the Data Teams protocol as outlined by the Larry Ainsworth. Evidence of a successful completion will be reflected by an increase in our school’s points as measured through the Florida School’s Accountability Program.

Evidence of Completion

Improvement on school's points as measured through the Florida School's Accountability Program.

Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.
