SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or with a grade of F within the prior two years. For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify resources available to support the goals and barriers that could hinder achieving those goals (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida’s Differentiated Accountability (DA) system is a statewide network of strategic support, differentiated by need according to performance data, and provided to schools and districts in order to improve leadership capacity, teacher efficacy and student outcomes. DA field teams collaborate with district and school leadership to design, implement and refine improvement plans, as well as provide instructional coaching, as needed.

DA Regions

Florida’s DA network is divided into five geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

Traditional public schools are classified at the start of each school year, based upon the most recently released school grades (A-F), into one of the following categories:

- Not in DA – currently A or B with no F in prior three years; charter schools; ungraded schools
- Monitoring Only – currently A or B with at least one F in the prior three years
- Prevent – currently C
- Focus – currently D
 - Planning – two consecutive grades of D (i.e., DD), or a grade of F immediately followed by a grade of D in the most recent grades release (i.e., FD)
 - Implementing – two consecutive grades of D in the most recent grades release preceded by a grade below C (i.e., FDD or DDD)
- Priority – currently F
 - Planning – declined to a grade of F in the most recent grades release and have not received a planning year or implemented a turnaround option during the previous school year
 - Implementing – two consecutive grades of F (i.e., FF), or three consecutive grades below C with an F in the most recent grades release (i.e., FDF or DDF)

DA Turnaround and Monitoring Statuses

Additionally, schools in DA are subject to one or more of the following Turnaround and Monitoring Statuses:

- Former F – currently A-D with at least one F in the prior three years; SIP is monitored by FDOE
- Planning – Focus Planning and Priority Planning; district is planning for possible turnaround
- Implementing – Focus Implementing and Priority Implementing; district is implementing the Turnaround Option Plan (TOP)

This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced

Rockway Elementary follows the Code of Student Conduct (COSC) as set by Miami-Dade County Public Schools in order to promote and maintain a safe learning Teachers and staff model and practice each of the behavioral expectations throughout the year. The District Core Values which include Citizenship, Cooperation, Fairness, Honesty, Integrity, Kindness, Pursuit of Excellence, Respect, and Responsibility are incorporated into the curriculum. One value is emphasized each month through morning announcements, classroom presentations, small group discussions, and/or parent conferences. These values are also highlighted in the monthly calendar and during activities conducted throughout the school. The school counselor visits all classrooms on a weekly basis to present these values and give examples of ways in which they can be displayed in and out of school. Teachers follow progressive discipline with established protocols for all disciplinary incidents. Clear

behavioral expectations are shared with all students via assemblies, school-wide signs, parent meetings and letters, Connect Ed messages and morning announcements.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services

Administrators engage with the school counselor and social worker to assist in providing a differentiated delivery of services based on student/school need. A School Discipline Committee is in place to address alternatives to suspension. Disciplinary actions include but are not limited to: removal of privileges, denial/non-participation in school/extracurricular activities and time-out. Students with excessive unexcused absences will be referred to the counselor or Community Involvement Specialist. Parent Workshop Meetings are held to develop strategies and goals to help improve student attendance.

Describe the school's early warning system and provide a list of the early warning indicators used in the system

Administrators, school counselor and school psychologist meet on a regular basis to analyze data and identify students who have attendance, behavioral or academic concerns. Students are moved through the multi-tiered system of supports in all areas as needed. Some of the indicators reviewed include:

1. Retention
2. Excessive Absences (Excused & Unexcused)
3. Excessive Tardies

	K	1	2	3	4	5	
Students exhibiting two or more indicators	6	7	5	2	7	2	29

Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system

Rockway Elementary uses various early warning indicators based on readily accessible data which help promote student success. We systematically collect data on academic performance in diverse assessments and utilize all available information to look for patterns and identify school climate issues that may contribute to possible issues related to low academic performance. Students are generally identified as working above, at (proficient), or below grade level. Administrators and teachers conduct ongoing progress monitoring and data chats to identify and help develop individualized plans for students in jeopardy of failing and for every student to ensure academic, social, and behavioral success. Students who are retained also receive individual and/or group counseling. Students scoring below proficiency levels on standardized assessment are monitored and provided additional assistance in core subjects. Differentiated Instruction is provided at all grade levels for both reading and mathematics. Parent meetings are held to develop strategies and goals to help improve student attendance.

Rockway Elementary follows the Code of Student Conduct (COSC) as set by Miami-Dade County Public Schools in order to promote and maintain a safe learning environment free from disruptions that interfere with teaching and learning activities. In addition, a school-wide discipline plan is implemented. The District Core Values which include Citizenship, Cooperation, Fairness, Honesty, Integrity, Kindness, Pursuit of Excellence, Respect, and Responsibility are incorporated into the curriculum. One value is emphasized each month through morning announcements, classroom presentations, small group discussions, and/or parent conferences. Rockway Elementary School uses data-driven decision making in order to gather data to ensure the school, the class, and the student is meeting our purpose and vision and to guarantee that every student learns and is successful. The school's MTSS/Rtl Leadership Team collaborates monthly to: Analyze data such as Thinkgate and PMRN Reports and link it to instructional decisions; review progress monitoring data at the grade level and classroom level to recognize students who are meeting/exceeding benchmarks. Based on the following information, the leadership team will provide professional development and resources necessary to carry out effective interventions. The team collaborates regularly to resolve problematic issues, share efficient practices, assess implementation, execute choices, and practice new processes and skills. The team also supports the process of building consensus, increasing communications, and managing decisions about implementation. The team provides a common vision for the use of data-based decision making to include CELLA and District Interim Assessments; establishes that the school-based team is implementing MTSS/Rtl; conducts assessments of MTSS/Rtl skills; ensures implementation of intervention, support, and documentation; determine adequate professional development to support MTSS/Rtl implementation; and communicates with parents regarding school-based MTSS/Rtl plans and activities. They

collaborate with teachers to verify that the intervention plan devised is appropriate to the needs of the targeted student or students. The Principal and Assistant Principal make certain that the team process and decisions are implemented in accordance with the goals and desired outcome of the team and the evidence-based strategies chosen. A partnership with Florida International University will provide an added two hours per week of tutoring for emergent readers in grades two and three. Through the Title III CASTA Program we will also provide a cultural engagement program two hours per week for six weeks to engage students with enrichment activities. Teacher-led PLCs will also be held through a partnership with the University of Florida's i3 Ready Schools Program.

Strategy Rationale

In order to facilitate this, the students participating in the reading and math tutorials through the Title III funding will participate voluntarily in before and/or after school tutorial sessions. Students participating in the Florida International University tutoring program will also attend voluntarily on Tuesday and Thursday afternoons for one hour tutoring sessions. Students participating in the CASTA program through the Title III funds will be provided with a six week cultural engagement program voluntarily before or after school.

Student Transition and Readiness

PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(G).

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another

The Title I Program will assist with providing young children with a variety of meaningful experiences, in environments that give them opportunities to create knowledge through initiatives shared with supportive adults.

In order to assist in the transition of Pre-K students into Kindergarten Rockway Elementary provides parents with the opportunity to visit our Kindergarten program and receive information or skills needed for a smooth transition. At Rockway Elementary all incoming Kindergarten students are assessed upon entering Kindergarten in order to ascertain individual and group needs and to assist in the development of constructive instructional/intervention programs. Students are assessed using the Florida Kindergarten Readiness Screener (FLKRS) composed of ECHOS, FAIR, and IDEL. The teachers also use a teacher-made kindergarten readiness screening to identify basic skills such as print/letter knowledge and level of phonological awareness/processing. In addition to academic/school readiness assessments, all incoming Kindergarten students will be assessed in the area of social/emotional development. Informal teacher assessments/surveys will be used to determine social/emotional development. All data gathered will be used to plan academic as well as social skills instruction. Screening tools will be re-administered mid-year and at the end of the year in order to determine student learning gains in order to determine the need for changes to the instructional/intervention programs.
